Polk's Kansas state gazetteer and business directory

Section 40, Pages 1171 - 1200

This gazetteer lists all of the towns in Kansas in 1900 alphabetically, regardless of size. The information for each town includes the population, information about the town, and a list of business people in that community. The town listings begin on page 95. The classified business directory (see general index for page number) groups information by business, profession, industry, etc. for the entire state. The gazetteer also includes advertisements for many businesses, lists of state and county officials, district courts and judges. There is a general index on page 12 but it does not include the town listings. An index to advertisers begins on page 13. The original volume that was scanned was missing pages 9-10 and 87-92. There are no pages numbered 69-78 as page 68 is numbered 68-78. The gazetteer also contains a business directory for Kansas City, Missouri.
