State inspector of coal mines reports

Section 114, Pages 3391 - 3420

These reports of the Kansas State Mine Inspector mostly concern coal mining, though by 1929 the scope of the reports broadens to include metal mines. The content of individual reports will vary. The reports address mining laws and mining districts; industry production and earnings; fatal and non-fatal accidents; accident investigations and transcripts of oral interviews; labor strikes; mine locations; mining companies and operators; and proceedings of mining conventions. The reports document the political, economic, social, and environmental impacts of more than seventy years of mining in southeastern Kansas.

Creator: Kansas. Inspector of Coal Mines

Date: Between 1884 and 1956

Callnumber: SP 622 K13

KSHS Identifier: DaRT ID: 210191

Item Identifier: 210191

KANSAS COAL MINE DIRECTORY.

TABLE OF CONTENTS.

1. Alphabetical list of coal companies, arranged by counties, and separated into deep mines and strip mines.
2. Mine numbers.
3. Post-office address of main office.
4. Post-office address of local office.
5. Name of superintendent.
6. Location of mine, showing section, township, and range; distance in miles and direction from cities or towns.
7. Railroad connections.
8. Kind of opening.
9. Kind of hoist.
10. Depth of mine.
11. Average height of coal.
12. Remarks.

PRODUCTION STATISTICS.

TABLE OF CONTENTS.

1. Alphabetical list of coal companies arranged by counties and separated into deep mines and strip mines, with the following information covering each mine:
2. Production: number of tons and class of coal produced.
3. Employees: number and class of employees.
4. Days worked: average days worked.
5. Powder: number of twenty-five-pound kegs of powder used.
6. Dynamite: number of pounds of dynamite used.
7. Fatal accidents: number of fatal accidents.
8. Nonfatal accidents: number of nonfatal accidents.
9. Remarks.
10. Recapitulation of the above, based on total calculations for each county, with the following information covering each county:
11. Production: number of tons and class of coal produced, and percentage of state's entire production.
12. Employees: number and class of employees, and percentage of total number of men employed in the mines of the state.
13. Days worked: average days worked.
14. Powder: number of twenty-five-pound kegs of powder used, and percentage of total amount of powder used in state.
15. Dynamite: number of pounds of dynamite used, and the percentage of total amount of dynamite used in state.
16. Fatal accidents: number of fatal accidents, percentage of total number of fatal accidents in state, and number of tons of coal mined per fatal accident.
17. Nonfatal accidents: number of nonfatal accidents, percentage of coal mined per nonfatal accident.
18. Average depth of mines.
19. Average height of coal.
