Colored Directory, Topeka, Kansas

Section 1, Pages 1 - 30

This "Colored Directory" is similar to other city directories. It lists African American churches, organizations, businesses and professionals. The bulk of the directory lists the names of African Americans and their addresses. Page 59 lists the names of the faculty, what they teach, and where they received their education for the Kansas Vocational School, as well as other employees. The directory does not list occupation. It also contains a number of advertisements from Topeka and Shawnee County businesses.

Introductory

Twelve and one-half per cent of the population of Topeka is colored. There are more than 3,000 Negro families. Approximately 70 per cent of these own their own homes. We mention these figures to show and suggest the importance of this directory. We trust you will keep it and use it.

This directory has been published for the benefit and convenience of the Colored people of Topeka. It has been made possible through the friendly cooperation of many Topeka business firms. And we know that the Negroes of Topeka appreciate the service which it renders.

We know also, that the Negroes of our city will reciprocate. The merchants and business firms whose advertisements appear in this book will find that their assistance has yielded a generous return in business from the Colored trade.

We urge every Negro in Topeka to give the advertisers in this book your preference when you go out to shop. They are friendly to us and we must show them that their friendship is sincerely appreciated.

Whatever else may be said about us, there is one quality that Negroes are universally famous for—we are LOYAL. So let us all be Loyal to the Topeka business firms that have made this Colored Directory possible.
