

Kay for Kansas

This 1972 campaign brochure promotes Morris Kay as the Republican candidate for Kansas governor. The brochure argues that as a majority leader in the Kansas House of Representatives, Kay knows how to bring political parties together and work toward positive programs that will benefit all Kansans. It claims Kay is a leader that has the courage to answer the problems that are facing the state, and has provided a list of solutions he will implement as governor. Incumbent Governor Robert Docking defeated Kay in the November general election.
