

## National Refining Company, Coffeyville, Kansas

### Section 2, Pages 31 - 34

An album with photographs and information on the National Refining Company, Coffeyville, Kansas. The refinery was built on 75 acres in northeast Coffeyville. At the time of construction, National Refining Company was the second largest oil company in the nation with Standard Oil being first. The Missouri, Kansas & Texas Railroad laid tracks to the refinery's site and construction was started in 1904. Oil from Coffeyville and the north territory was piped to the refinery. Capacity was 2,500 barrels per day, and by the 1920s, it was one of the largest independent refineries in the country. Included in the album are photographs of the Missouri, Kansas & Texas Railroad locomotives pulling tank cars, buildings, laboratories, employees, and equipment at the refinery. The scrapbook includes descriptions of the various processes that occur at the refinery. There are some equipment photos from 1906 next to the 1925 version of the same equipment.

Date: Between 1923 and 1925

Callnumber: 2009-128.01

BALANCE. AN INSTRUMENT FOR WEIGHING.

END POINT APPARATUS. AN APPARATUS USED FOR DETERMIN\*  
ING THE END POINTS ON WHITE ROSE GASOLINE.

END POINT APPARATUS.

CENTRIFUGE. APPARATUS USED FOR DETERMINING THE SEDI-  
MENT IN CRUDE OIL.

## WHITE ROSE GASOLINE

**Sells for 3c More a Gallon  
—and is worth it**

**1** The National Refining Company has never made, or sold, but one grade of gasoline—White Rose, the best.

**2** It is as pure as gasoline can be made.

**3** For nearly a half-century White Rose Gasoline has been sold for 3c more a gallon than the market price of ordinary gasoline.

**4** White Rose is the only gasoline for which those who know its merits have willingly paid a higher price for nearly fifty years.

**5** White Rose Gasoline is made by a Company that drills its own wells, owns its own pipe lines, tank cars, refineries and service-stations.

**6** The sale of White Rose Gasoline has increased from a few hundred gallons to many millions of gallons a year.

**7** White Rose Gasoline contains no injurious chemicals or "dopes".

**8** The results claimed for White Rose Gasoline are based on facts gained from actual usage and not on theory or experiment.

**9** Recently, there have been many "price" imitators of White Rose Gasoline. But *never* has White Rose had a "quality" imitator.

**10** No artisan in *any* line takes greater pride in his product than do the men who make White Rose Gasoline.

**Continuous use of  
White Rose Gasoline  
will soon convince  
you of these facts:**

**11** That it creates a smooth, turbine-like flow of power—never jerky, cranky, sputtery or "bomb-like".

**12** That White Rose Gasoline will "drive" your engine to the maximum of its capacity.

**13** That White Rose Gasoline can *not* injure in the least those finely-machined parts with which it comes in contact.

**14** That the instantaneous ignition of White Rose Gasoline gives you that most desirable—"pick-up".

**15** That White Rose Gasoline makes your car run more quietly and smoothly, because "puffs" instead of "blasts" its way to the exhaust.

**16** That White Rose Gasoline contains the minimum amount of carbon-creating elements.

**17** That it gives greatest load-mileage.

**18** But, *only* at the end of a year's daily use of White Rose Gasoline will you fully appreciate how much it has saved you. *This* evidence you will obtain by a comparison of your engine repair-bills as against those of the previous year.

### En-ar-co Motor Oil Saves the Silk Surface of Polished Steel

En-ar-co Motor Oil is softer than velvet. It prevents friction of moving parts, allows noiseless freedom, it has a "body" that withstands the severest heat, always preventing metal-to-metal contact.

En-ar-co Motor Oil forms a perfect protective film between rings and pistons, between pistons and cylinder walls. This prevents seepage of "oil" into the crank case, prevents excess oil reaching valves and plugs to form injurious carbon.

*These are the  
reasons why  
White Rose  
Gasoline sells  
for 3c more a  
gallon—And  
is worth it.*

"Buy at the Sign of  
the Boy and Sign."
