Kansas Board of Pharmacy reports

Section 48, Pages 1411 - 1440

These reports, published by the Kansas Board of Pharmacy, may include the secretary's annual report to the governor, board proceedings, cases prosecuted, laws, rules and regulations, legal decisions, and lists of registered pharmacists, pharmacies, and assistants. Names are frequently listed alphabetically and by county. Some reports contain short sketches of deceased members. A fifth annual report is not known to exist. The fourth and sixth reports were both published in 1891. Gaps in publication or holdings exist in 1900; 1917-1934; 1936; 1939; 1941-1947; 1949-1954; 1956-1957; 1959-1966; 1968-1971; and post 1972. Funds to underwrite the digitization of these reports, Board of Pharmacy Examination questions (Item # 214023), and the Board of Pharmacy Rules and Regulations (Item #214924) were provided by the Jere Matchett Memorial Fund. This donation also funded the scanning of photographs of drug stores across Kansas to include them in Kansas Memory.

It shall be hereafter unlawful for any person within the State of Kansas to open or conduct any drug store, pharmacy, retail store, shop or other place of business for retailing, dispensing or compounding medicines or poisons, or to retail, except as provided in chapter 70, of the General Statutes of 1909, any drug or medicinal preparations or any article containing the same for medicinal use, or to dispense or compound any medicine or poison, unless such person be a registered pharmacist, or under the supervision of a registered pharmacist, within the meaning of this act. It shall be the duty of the members of this board after the receipt of notification of their appointment to make and subscribe to an oath properly and faithfully to discharge the duties of their office, and within thirty days thereafter meet and organize by the election of a president, secretary and treasurer to be selected from the members of the board. (L. 1885, ch. 150, No. 2, as amended by L. 1887, ch. 174, No. 1; March 12, No. 8096, Gen. Stat. 1909.)

The term "original package" signifies either the wholesale or retail package.

Regulation 3. All proprietory medicines containing poisons can be sold only by registered pharmacists or registered assistant pharmacists, as provided by the pharmacy law. The sale, therefore, of any quantity of poison or poisonous preparations enumerated in section 3, Laws of 1913, or of any proprietary medicines containing such poisons can only be made by registered pharmacists, or registered assistant pharmacists.

A fee of fifty cents is charged for such change. If this is not done the certificate is not in full force and effect and any place of business conducted under such a certificate or anyone practicing pharmacy under such a certificate would be violating the law.

And if said blank so filled out together with the said fee of one dollar shall not on or before the first day of August of the same year be received by said secretary from any registered pharmacist or assistant pharmacist so notified, said secretary shall strike from the register the name of such pharmacist or

KANSAS STATE BOARD OF PHARMACY

ANNUAL REPORT

of the Board of Pharmacy to the Kansas Pharmaceutical Association.

To the Honorable President and Members of the Kansas State Pharmaceutical Association:—

I take pleasure in submitting herewith for your consideration a condensed report of the business transacted by our Board for the past year.

Regular quarterly meetings of the Board, as provided by legal enactment, were held as follows:

The first quarterly meeting was held in Lawrence, May 29 and 30. W. S. Henrion and W. S. Dick receiving the appointment as members of the Board, election of officers for the ensuing year was held and the following were elected: W. S. Henrion, president; M. W. Friedenburg, treasurer; W. E. Sherriff, secretary; and W. S. Dick, Chairman of the Finance Committee. At this meeting there were 52 applicants for the examination in attendance of which 15 were registered as pharmacists and one as assistant pharmacist. The following business transacted by the secretary was approved: Pharmacists registered on diploma from recognized schools of pharmacy, 4; restored to the register, 2; temporary certificates issued, 3; merchants licensed, 258.

The second quarterly metting was held in Dodge City, August 20 and 21, all members being present excepting President Henrion, who was absent on account of sickness. There were only 15 applicants in attendance at this meeting of which number 10 were successful in getting certificates as registered pharmacists. The following business transacted by the secretary was approved: Pharmacists registered on diploma from recognized school of pharmacy, 1; pharmacists restored to the register, 8; merchants licensed, 151.

At this meeting, in response to the sentiment expressed by the members of the Association at their annual meeting in Lawrence, the following resolutions were adopted: Whereas: we, the Kansas Board of Pharmacy, realizing that injustice is being done to many good pharmacists coming from other states to this state, in being compelled, under the present practice of this Board, to undergo another examination in order to register in this state, and Whereas: we believe a correct construction or interpretation of the pharmacy laws of Kansas gives the Board the right to accept the examinations of certain

other states in lieu of an examination by this Board, in order to grant registration to such persons as come with the proper credentials and evidence, Therefore: be it resolved, that we, the members of the said Board, individually and collectively, hereby accept the standard for reciprocal registration as adopted by the National Association Boards of Pharmacy, as set out in a written agreement, a copy of which is filed in the secretary's office, and that we will, under proper restrictions, register such parties coming from other states, whose Boards of Pharmacy grant the same privileges to examinees of this Board, and be it further resolved, that the president and secretary of this Board are hereby authorized and instructed to sign the N. A. B. of P. agreement above referred to.

The third quarterly meeting was held in Kansas City, November 12 and 13, all members being present except W. S. Dick.

There were 51 applicants for the examinations in attendance, of which number 19 were successful in receiving certificates as registered pharmacists. Report of the treasurer was received and filed on the approval of the Finance Committee. The report of the secretary was found correct.

In the case of J. F. Tilford's renewal as a registered pharmacist, the secretary was instructed to re-register him on the form of application as presented by him.

In the case of John C. Witt, the secretary was instructed to reject the renewal of his certificate as his application was not in due form.

The complaint of T. J. Phillips of Elk City R. F. D. against druggist of Elk City, (not named) for the sale of poison without the proper labeling, was referred to the county attorney, who reported that Mr. Phillips refused to appear in the case and asked the same to be dismissed.

Communication of Mrs. M. M. Whitney was received and ordered filed. The following business transacted by the secretary was approved: Pharmacists registered on diploma from recognized schools of pharmacy, 2; pharmacists restored to the register, 7; temporary certificates issued, 2; merchants licensed, 180.

The fourth quarterly meeting was held in Wichita February 11 and 12, all members of the Board present. 47 applicants answered to the roll call for the examination, of which number 24 were granted certificates as registered pharmacists, and 1 as registered assistant pharmacist.

The following business transacted by the secretary was approved: Pharmacists registered on diploma from recognized schools of pharmacy, 1; pharmacists registered by reciprocity, 3; temporary certificates issued, 1; merchants licensed, 189.

A special meeting of the Board, in conjunction with C. C. Reed, president of the K. P. A. and F. W. Ekstrand, chairman of the legislative committee, was held in Wichita, June 9, 1913, at which meeting

the rules and regulations were adopted, in accordance with section 7, chapter 186, laws of 1913. These rules, as adopted, were published in the official state paper (Topeka State Journal) June 18, 1913, thus becoming a law.

On the call of President Henrion, a special meeting was held in Topeka, April 13, 1914, for the purpose of re-organizing, (W. E. Sherriff having been re-appointed as a member of the Board for the ensuing three years,) as provided for under section 1, chapter 174, laws of 1887, all members being present except J. G. Bunch. The following officers were elected for the ensuing year: W. S. Henrion, President; M. W. Friedenburg, Treasurer; W. E. Sherriff, Secretary; W. S. Dick, Chairman of Finance Committee. The requirements for recognition of Schools of Pharmacy were adopted at this meeting. In this work we were very ably assisted by Prof. L. E. Sayre, Dean of the Kansas University School of Pharmacy.

Since the adoption of reciprocity, there have been four of such registrations made, three of the applicants being from Nebraska, the other one from Missouri. Eight pharmacists from Kansas have been registered in other states on their Kansas certificates, divided as follows: California, 1; Missouri, 3; Iowa, 2; Arizona, 1; Idaho, 1. There have been several applications for such registration that were rejected as not complying to the full requirements.

The number of complaints filed the past year number 68, the major part of which were successfully handled by correspondence, as we did not keep any inspectors on the road at all the past year, sending them out only on complaints that we were not able to get any satisfaction from through letters. We still receive a large number of letters reporting sales of poison fly paper, wood and denatured alcohol, paris green and peroxide of hydrogen. As the above poisons can be sold by others than registered pharmacists, (with slight restrictions) all that can be done with such complaints, is to instruct them as to the restrictions. Under the circumstances, we do not insist on the registering of the poisons that are excepted on the poison schedule. The Supreme Courts decision on the sale of peroxide of hydrogen being adverse to our construction of the law, it is now beyond our power to restrict the sale of the same to registered pharmacists, and the attempt to rectify the above decision by an amendment to the pharmacy laws resulted in a law that allows the sale, not only of this article, but all patent medicines and domestic remedies, by any one that takes out a license at the nominal cost of $2.50, which we have attempted to remedy by the adoption of regulations that require the distance to be four miles from a registered pharmacist. There has been no attempt, so far, to test out this regulation, as, fortunately the attempts to put in such stocks in competition with registered pharmacists, are very rare.

Thirty-seven of these complaints were against parties conducting a drug store without a registered pharmacist in charge. Some of

KANSAS HISTORICAL SOCIETY

these complaints were without merit, and the major part of them were adjusted promptly by correspondence. Seven required the personal attention of the inspectors. Four complaints were against places operating under a merchants license issued to physicians, claiming the authority or rights of the license were being abused. Evidently a large number of the druggists are not familiar with the pharmacy laws as amended by the last session of the legislature, as sales of articles mostly complained of, are now excepted, and we were unable to get evidence that they were not complying with the requirements.

A newspaper clipping of the account of a conviction of a registered pharmacist for the violation of the prohibitory law was received and a request for the transcript of the case, from the informant, was ignored, making it powerless for action in the matter.

A county attorney filing the transcript of a conviction of a registered pharmacist in his county for the violation of the prohibitory law for the sale of Jamaica Ginger, resulted in the name of the party convicted being stricken from the register in accordance with section 3, chapter 186, laws of 1913.

We still receive a few letters of complaint as to the operation of the peddler wagons, without a license for the same, so we have compiled a list by counties of the holders of licenses, date of issue, life of license, and, where possible, the name of medicine sold. We find the following counties without any licensed itinerant vendors: Clark, Comanche, Butler, Decatur, Edwards, Finney, Gove, Grant, Greeley, Hamilton, Haskell, Hodgeman, Kearney, Lane, Leavenworth, Logan, McPherson, Morton, Ness, Norton, Riley, Rush, Russell, Scott, Stanton, Stevens, Thomas, Trego, Wallace, Wichita, Wyandotte. Total, 31. Dickinson, Lincoln and Republic counties not replying to our third request for a report. Nine of the counties reporting issued licenses for three or six months, and a few issue the license to the company instead of the party doing the peddling. A great many of the licenses were due to expire about the time the list was compiled and if you will take the interest to investigate it may be some can be made to retire especially if the clerk is firm as to the payments being one year in advance. All complaints as to above are referred to the county attorney and names of informant are not used when requested not to.

The number of merchants licensed have been kept up to the usual high number by keeping eternally after them by mail, and in a few cases finding it necessary to refer the matter to the county attorney, which brings results in a majority of the cases, thus eliminating the expense of keeping an inspector on the road. The total number of licenses issued the past year is 878.

On July 1, there were 1935 registered pharmacists and 22 registered assistant pharmacists in good standing on the register. On August 1, there were 96 stricken off the register for non-payment

of renewal fee, 15 for deaths, 24 for leaving the state, and 5 for the discontinuance of business, leaving 1795 names of registered pharmacists and 18 assistants in good standing on the register. At the present time there are 1882 registered pharmacists, and 19 registered assistant pharmacists in good standing.

During the year we examined 165 applicants for registration, of which number 68 were successful as registered pharmacists and 2 as assistants.

We have also compiled a list by counties of every postoffice, rural free delivery and country store that we know of, with the number of registered pharmacists and merchants licensed in each place, as well as what information we could get on the balance of them and would like to have any of the members look over their county and advise as to any errors, additions, or any other information that they can give, as we wish to make a complete reference book of it.

As we were finishing this report we noticed a decision of the police judge of Kansas City which nullified the Morphine, Cocaine and Chloral Laws of 1901, and we took immediate steps to interest the local officers in the case, resulting in the city counsellor of Kansas City taking an appeal to the district court where a decision upholding the law was obtained, and the case being remanded to the police court, a conviction of one of the parties has been obtained, a full report not having been received as yet.
