

Lucio Bini 's Electroconvulsive therapy records

Section 2, Pages 31 - 60

Lucio Bini's papers, largely, consist of incoming handwritten and typed correspondence; blueprints and related documentation for electro-convulsive therapy (ECT) equipment. They also include product information for selling equipment, records related to international patents, research notes from early experiments on animals (dogs), and from tracking early patients undergoing electroshock therapy. Newspaper clippings, photographs (both in color and black and white), and other miscellaneous materials are available. Correspondents include Lothar Kalinowsky and other professional colleagues, as well as some patients. The second box of materials are all xeroxed photocopies from Bini's materials and is not well organized. The materials also include correspondence related to the acquisition of Bini's papers by the Menninger Foundation.

Translation of Letter, August 5, 1964

From: Mrs. Cerletti

To: Doctor Magliocco

Dear Doctor Magliocco:

Thank you for your very kind and cordial letter. I find you to be a very understanding person, and this is of great help in making serious and painful decisions. I believe, however, that we (my children and myself) will be very satisfied to have given to the care of the Menninger Foundation the material so precious to us, that is, the papers belonging to my beloved husband.

I think that in October-November I will let you know about writing to Bolliger. I am sorry that my son's interference delayed the shipment. However, his wish to peruse the papers before shipping them is understandable. He has not been able to do this, as he has been very busy. When he returns to Rome (he is at the present time in the United States), he will certainly complete the task.

With my best wishes,

Cordially,

s/ Etta Cerletti Marzolo

Dear Mrs. Cerletti:

First of all, let me thank you very much for your kindness during our contacts in Rome. I fully realize how exhausting and, at times, painful it must have been to go through your husband's papers, so full of memories for you.

I am very much in debt to you for the trust and confidence you placed in me and through me, to the Menninger Foundation by giving to our perpetual care all this very valuable material. We are very thankful for your decision - Dr. William C. Menninger, President of the Menninger Foundation, is writing you a letter officially confirming the conclusions we reached in our conversations concerning the preservation and the use of Professor Cerletti's papers. We aim to give him the right place in the history of human knowledge and specifically of psychiatry.

In my last conversation with your son, Dr. Paolo Cerletti, he anticipated that his perusal of your husband's papers will be completed probably by next fall. Please let me know when I can write a letter, a copy of which I will send to you, to the Bolliger Company in Rome instructing them about the packing and shipping of the above-mentioned material.

I feel greatly honored in having known you personally. Please remember that I am and always will be at your service for whatever question or help you may need. Of course, you can write me in Italian.

With the deepest sense of gratitude, I remain

Sincerely yours,

E. Bruno Magliocco, M.D.

Dear Alberto:

It was a great pleasure to see you again in Rome. I am making arrangements to have Professor Bini come and visit Topeka next October. Since we both know Professor Bini's natural shyness, I will appreciate it if you can help me by keeping some pressure on him to come here. Please gently remind him that he has promised to donate to the museum of the Menninger Foundation a replica of his first experimental electroshock apparatus.

As I told you we will need Professor Bini's curriculum including a list of his publications and a recent picture of him. Please try to get this material organized and send it to me as soon as possible.

We are planning to have an exhibit in our museum honoring Professor Bini's achievements. Incidentally the pictures taken at his house might be published in the local press. In such event I will certainly send you a copy of it.

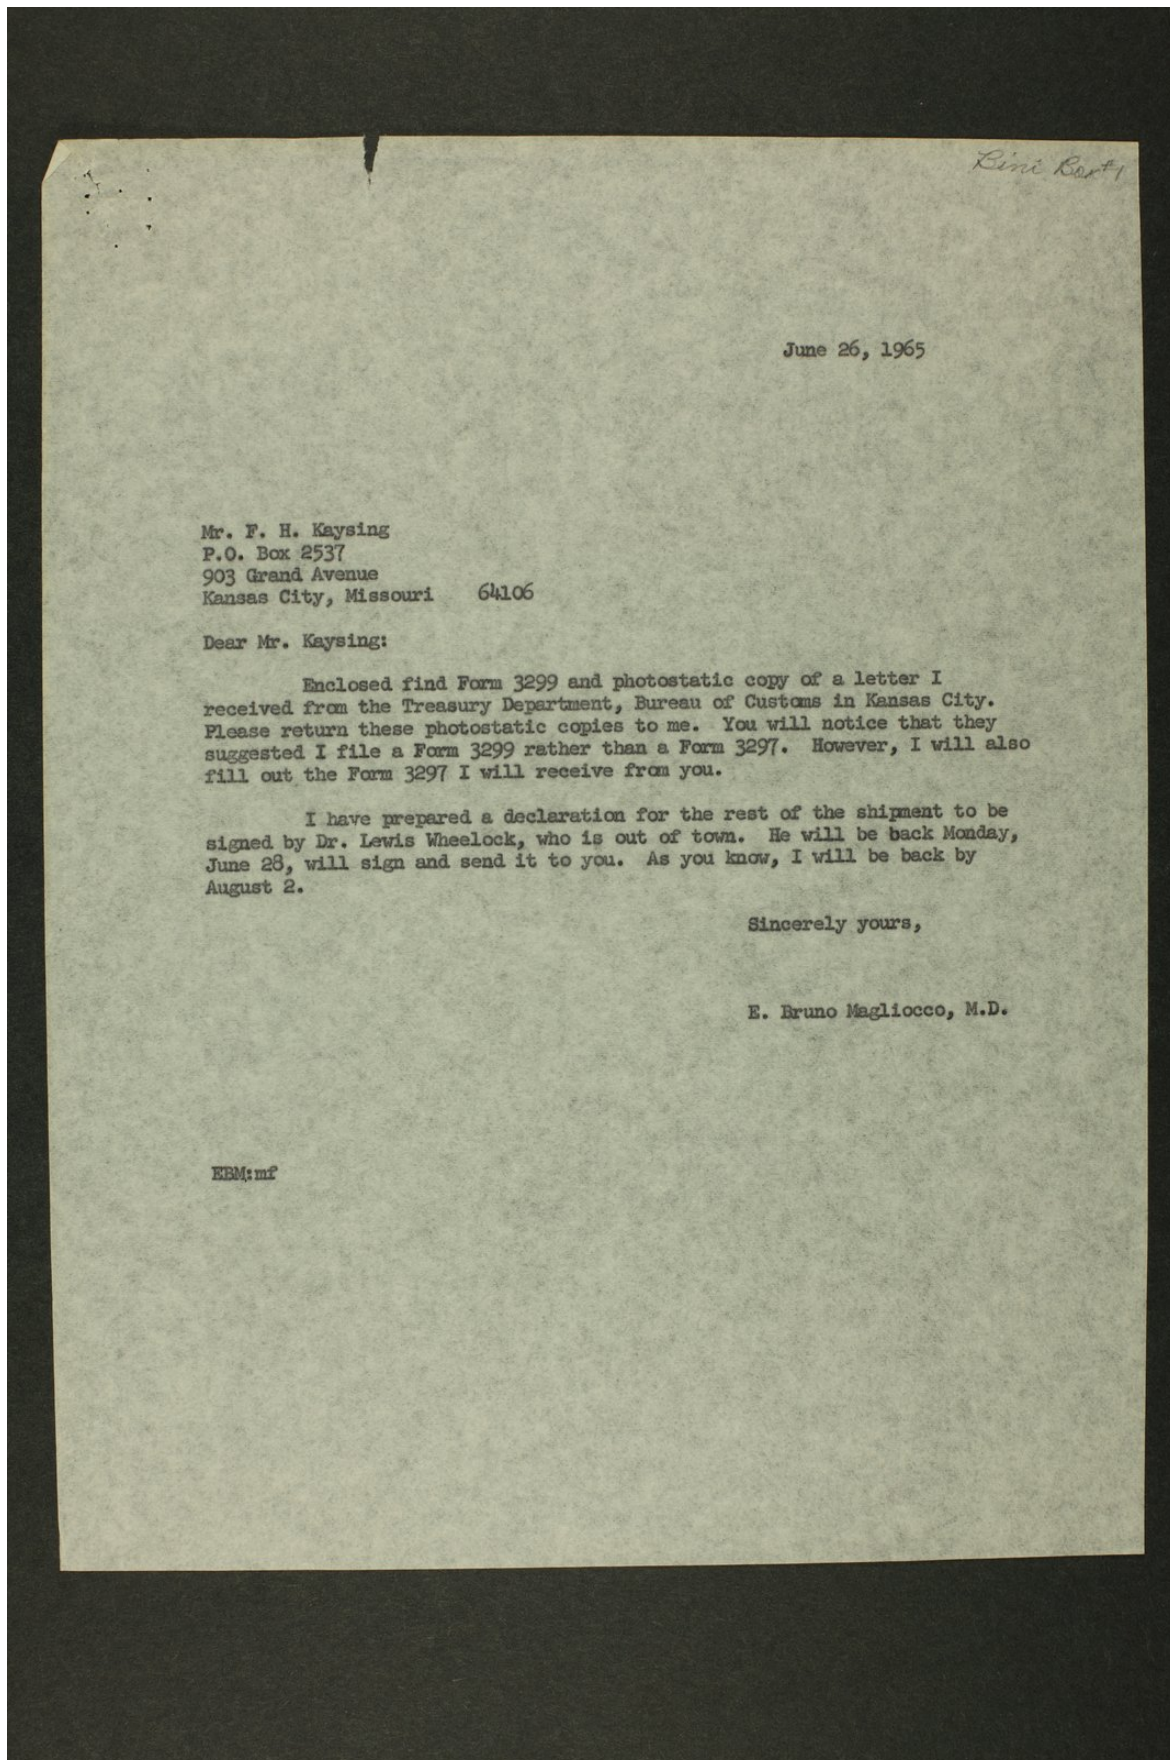

Thank you very much for whatever help you can give me in honoring our common friend and teacher, Professor Bini. Please give my best to your wife.

Dear Mr. Kaysing:

Enclosed find Form 3299 and photostatic copy of a letter I received from the Treasury Department, Bureau of Customs in Kansas City. Please return these photostatic copies to me. You will notice that they suggested I file a Form 3299 rather than a Form 3297. However, I will also fill out the Form 3297 I will receive from you.

I have prepared a declaration for the rest of the shipment to be signed by Dr. Lewis Wheelock, who is out of town. He will be back Monday, June 28, will sign and send it to you. As you know, I will be back by August 2.

Inter Office Memo

To: Dr. Lewis Wheelock

Date: June 26, 1965

From: Doctor Magliocco

Subject: Cerletti shipment

On Friday, June 25, Mr. Kaysing called informing me that the shipment was due in a few days in Kansas City. He requested a declaration, here enclosed, with the details he suggested. As I was preparing the statement, I thought that we might run into some difficulty with the Bureau of Customs in Kansas City as if we were "hiding" the fact that part of the shipment consisted of things belonging to me. Therefore, I called Doctor Hall, our lawyer, Mr. Casey and Mr. Kaysing again. This is why I prepared the statement the way it is and why I handled the part of the shipment belonging to me in a different way. This makes it strictly legal and more appropriate. The big trouble was that everything happened at the last moment! I hope I took care of everything. Please sign the enclosed statement and forward it to Mr. Kaysing as soon as possible. I enclose also my entire file about this shipment. I suggest that as soon as the shipment is in our hands, you cable a night letter to Mrs. Cerletti - this will be very good for her.

If you want to contact me, I will be in Cincinnati, arriving Monday, June 28 and leaving on Thursday, July 1. While there, I will be staying at the Holiday Inn Motel, downtown, Area Code 513, Telephone 241-8660. From July 7 or 8 to July 22, I will be at the following address: c/o Dr. G. W. Golini, 228 Beachwood Drive, East Greenwich, R.I. (near Providence, R.I.) / If possible, wait my return before opening everything. I plan to contact you on August 2.

TO WHOM IT MAY CONCERN:

This is to certify that the shipment #780/1-2-3, (3 cases of "personal effects", total weight kilograms 178) from Rome, Italy, arriving with the S.S. Heering Rose in Houston, Texas, contains the personal papers, manuscripts, books, drawings and paintings belonging to Professor Ugo Cerletti an eminent Italian psychiatrist and international known scientist who just recently died. This material of extraordinary historical value has been obtained without any cost as it was donated by his widow to the Museum and Archives at the Menninger Foundation for preservation, scientific research and exhibition. It is difficult to give a value to this shipment, however, this could be estimated at \$500 for each case for a total of \$1,500.

Within this shipment there are one painting, one drawing and approximately 30 professional ancient books belonging to Dr. E. Bruno Magliocco, for which he has submitted a separate statement.

The Bolliger Company of Rome, Italy, has notified me in a letter dated May 19, 1965, of the shipment of three cases of "personal effects" (total weight 178 kilograms) through the SS Herring Rose to arrive in Houston sometime in the near future. This shipment will be handled in Houston by W. R. Zanes and Company, Inc., 222 Customs Exchange Building, Houston, Texas, and will be shipped by Railway Express (insured for \$5,000.00) to me through your company so that the customs clearance will occur in Kansas City, Missouri.

In order to facilitate the customs clearance I want to inform you that this shipment contains material I obtained through private donations in Italy during my trip last year at the request of Dr. Lewis Wheelock, Director of the Museum and Archives of the Menninger Foundation. Inter Office Memo

Case #1*

To: Doctor Karl
From: Doctor Magliocco:arb
Subject: Translation of the Attached Letter

Date: 7/22/64

Dear Doctor Menninger:

Doctor Magliocco has given me the wonderful book, "A Psychiatrist's World." I thank you very much for this gift to my personal library where it will be available to anyone for consultation. Please accept my warmest congratulations.

Cordially yours,

s/ Prof. A. Pazzini

Professor Pazzini, the Director of the Institute of History of Medicine at the University of Rome, has created an excellent museum of international renown. A presentation of its display will appear in one of the forthcoming issues of "M.D." It is my impression that Professor Pazzini might be very helpful to us in enriching our collection and display through suggestions and exchanges. He is an expert in "antiques" and in faithfully reproducing instruments and objects from simple drawings and descriptions. I have already mentioned this to Doctor Wheelock and Doctor Hall.

Dear Miss Tarquisi:

This acknowledges your letter of March 10 addressed to Doctor Magliocco.

Thank you for giving us the address of the bookstore in Paris. We have been trying to find Chiarugi's book all over the world, including the bookstore you suggested, for the past several years. Thus, we are fully aware of the difficulty in obtaining a copy of it.

At Doctor Magliocco's suggestion, I am sending to Prof. Pazzini under separate cover a catalog of The Menninger School of Psychiatry and the Annual Report of The Menninger Foundation so that he can become acquainted with our Foundation. Please do not hesitate to contact me if I can be of any further assistance to you in this matter.

Sincerely yours,

(Mrs.) Nancy Ellis
Personal Secretary to Dr. Magliocco

In risposta alla sua lettera indirizzata al Prof. Pazzini, per suo incarico la informo che con molto piacere egli aderisce alla sua richiesta e farà quanto è in suo potere per aiutarla nella ricerca di materiale storico medico.

Il periodo da lei accennata va benissimo.

In quanto al libro che desidererebbe comprare, esso lo troverà - se lo troverà - solo da qualche antiquario, perché sarebbe bene cominciasse le ricerche fin da ora.

Ci sono parecchie librerie specializzate, come p. es. potrebbe scrivere alla " Librairie d'Amerique et d'Orient" Adrien Maissonneuve, 11 rue Saint Sulpice Paris VI -

In attesa di fare la sua conoscenza, si abbia i migliori saluti.

La Foundation ha un museo
con particolare rilievo per la
di Storia della Medicina in generale e di Storia
della Psichiatria, in particolare. Poiché quest'anno fanno
la mia ricerca in Italia il Comitato del
Museo mi ha incaricato ufficialmente
di recare di foto, anzitutto la collezione
e materiale italiano. Non essendo pratico in
questo campo, mi sono domandato se potrei
valermi delle Sue esperienze e collaborazione.
Arriverò a Roma alla fine di Aprile e ri-
staremo fino alla metà Luglio. Lei
