

## Tenth biennial report of the Kansas State Board of Agriculture, 1895-1896

### Section 29, Pages 841 - 859

This biennial report from the Kansas State Board of Agriculture is divided into nine parts devoted to the following topics: corn, sorghum, silos and ensilage, cow culture, steer and heifer beef, annual meeting addresses, proceedings of the board, and the decennial census of 1895. Also covered are county statistics for population, acreages, and assessed valuation of property.

Creator: Kansas State Board of Agriculture

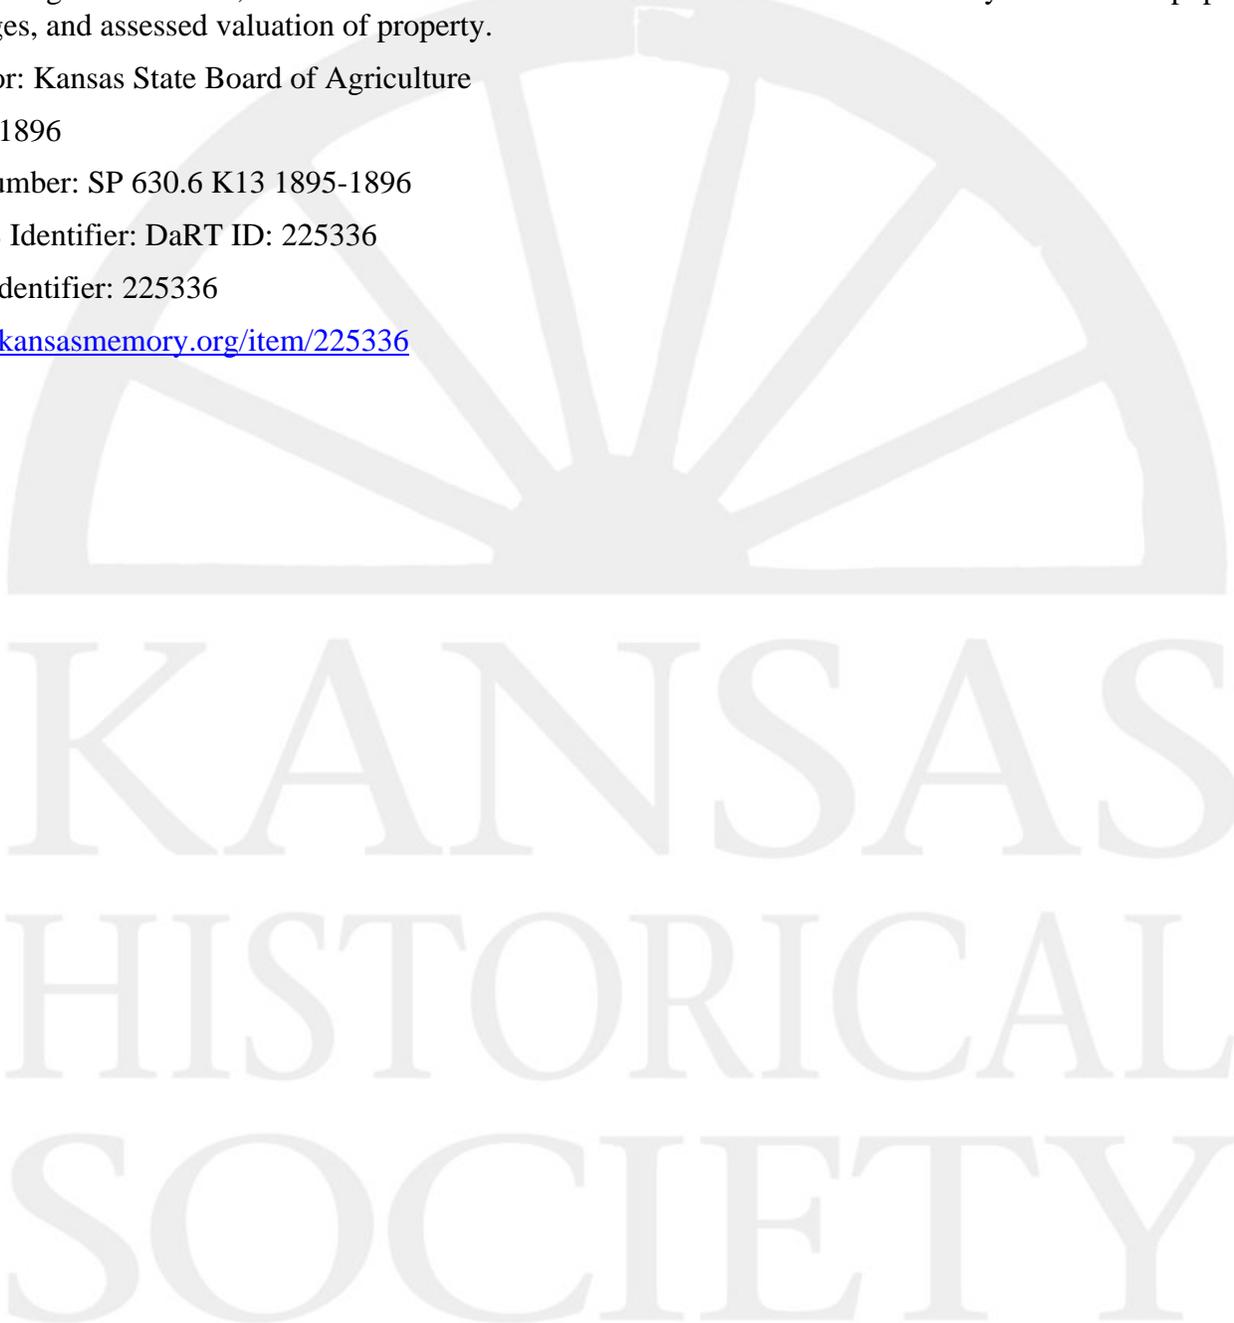

Date: 1896

Callnumber: SP 630.6 K13 1895-1896

KSHS Identifier: DaRT ID: 225336

## INDEX.

### PART I.—Corn.

	Page.
Broad-cast corn—food value of.....	94
Butler county corn raising.....	40
Corn roots and their relation to the soil.....	5
Corn raising in Kansas; expense of, as stated by the raisers.....	41
Corn raising from a central Illinois standpoint.....	53
Corn and some assistants.....	57
Corn—when to cut.....	74
Corn-fodder—harvesting, handling, and storing.....	79
Corn-fodder—saving and feeding.....	84
Corn-stalk disease.....	98
Corn-cobs—the value of.....	112
Corn-and-cob meal.....	100
Cribbing—inexpensive.....	106
Crops of Kansas and the United States.....	3
Cutting and shocking—good advice about.....	76
Field experiments—some Missouri.....	49
Field exposure—injury to fodder by.....	97
Great Britain—American corn in.....	118
Holding and shrinkage—experience in.....	107
How he raised 104 bushels per acre.....	51
Introductory.....	1
Injurious to corn—some insects.....	69
Jewell county corn raising.....	37
Judging corn—a scale of points for.....	114
Large yields of corn.....	112
Listers and listing.....	31
Observations by a most extensive grower and feeder.....	63
Planting.....	28
Pop-corn as a market crop.....	117
Rat-proof crib and granary.....	103
Saving seed-corn.....	116
Seed, and best varieties for Kansas.....	25
Shredding and storing—points about.....	86
Smut.....	72
Subsolling—experiences with.....	20
Swine disease from feeding new corn.....	102
Thrashing corn.....	91
Tillage.....	34
Tillage—some problems in.....	11
Tires, wide and narrow.....	96
What a good corn crop signifies.....	4
White and yellow corn—productiveness of, compared.....	52
Whole fodder—a rack for feeding.....	95
Yellow and white corn—a difference in feeding values.....	53

### PART II.—The Sorghums.

Feed rack—a portable.....	144
Kafir-corn raising and feeding.....	123

Kafir-corn—a central Kansas sermon on.....	130
Kafir-corn in 1895.....	132
Kafir-corn from an Oklahoma standpoint.....	136
Saccharine sorghum as a fodder plant.....	137
Sorghums and corn as feedstuffs compared by analysis.....	142
Sorghum—they appreciate.....	143

PART III.—Silos and Ensilage.

Advantages of the silo to dairymen.....	151
Butter-making—ensilage for.....	154
Corn silage for milch cows.....	152
Facts—a few settled.....	149
Silos—constructing and filling.....	163
Silo building.....	168
Silo—a Kansan's experience with a.....	172
Silo—the style of for western Kansas.....	175
Silo—a Nebraska.....	176
Silo—how to fill the.....	178

PART IV.—Cow Culture.

Alfalfa hay for milch cows.....	407
Breeds—yields by, and cost of production.....	272
Butter and cheese factories of Iowa.....	408
Butter and milk—the best breed for.....	254
Butter—coloring home-made.....	370
Butter—decreasing the cost of.....	383
Butter direct to private customers.....	390
Butter-making experiments.....	380
Butter-making on the farm.....	361
Butter-making on the farm—more about.....	365
Butter—points about salting.....	369
Butter production—cost of, in winter.....	372
Calves—raising for the dairy.....	261
Cheese-making on the farm.....	397
Cheese milk—popular basis of payment for.....	399
Cheese or butter—which is more profitable to make?.....	392
Composition of milk—effect of feed upon the.....	302
Contrasted—two creameries.....	320
Cooperative creamery—how to succeed with a.....	310
Cooperative creameries in Denmark.....	313
Cows—matured, most profitable.....	258
Creameries and winter dairying.....	319
Creameries—cooperative.....	303
Creameries in Kansas—observations on.....	317
Creameries—organizing cooperative.....	306
Creamery buildings and ice-houses.....	327
Creaming—methods of, compared.....	368
Creamery patrons—suggestions to.....	321
Creamery report—a model.....	323
Creamery sharks—a warning against.....	311
Cream separator—a traveling.....	355
Cream separator—use and care of a.....	352
Dairying—some advantages of.....	191
Dairying—building up a.....	254
Dairy cow—choosing a.....	252
Dairy cows—some representative.....	287
Dairy herd—improvement of the.....	256

## Tenth biennial report of the Kansas State Board of Agriculture, 1895-1896

*Tenth Biennial Report.*

849

Dairy herd—testing the.....	268
Dairy journals—list of.....	439
Dairy state—Kansas as a.....	186
Dairy state—advantages and possibilities of Kansas as a.....	188
Dairy stock—selection of.....	246
Disconnected notes—a butter-maker's.....	360
Economy in dairying—the true order of.....	326
Fat—relation of, in milk, to cheese produced.....	396
Feeding stuffs—Kansas dairy.....	192
Gathered from many sources:	
A cellar should be cleared of every vestige of vegetable matter.....	415
A man who makes sure that he washes his hands clean.—Robertson.....	411
An ice-house is a necessary adjunct to every creamery.—Trueman.....	413
At the Columbian Exposition.—Ohio Farmer.....	438
Babcock test.....	424
Blue-grass pasture and soiling crops.—Henry.....	425
Butter-making on the farm.—Colman's Rural World.....	419
Butter-maker's talks with his creamery patrons.—Creamery Gazette.....	420
Butter obtainable from 100 pounds of butter fat.—Northwestern Agri- culturist .....	438
Butter and bables.....	415
Buttermilk for hogs.—Louis.....	427
Calves born in the fall.—Alvord.....	433
Canadian cheese.—McKay.....	435
Cause of creameries often being a failure.—Field and Farm.....	410
Champion dairy cow of the world.....	435
Change in feed.—Agricultural Epitomist.....	428
Character of the water used a very important item.—Hoard's Dairyman.....	432
Cost for the single equipment of the farm creamery.—Gould.....	437
Creameries converted into cheese factories.—McKay.....	411
Cream ripe for churning.—Robertson.....	419
Creamery dividends.—Hoard's Dairyman.....	422
Creamery man getting stuck.....	432
Creamery owner rearing litters of pure-bred hogs.—Creamery Gazette.....	431
Creameries to centralize and make butter at one expense.—Conservative.....	432
Dairy farm not the place for a dog.—Creamery Gazette.....	425
Dairying and diversified farming the only solution.—Gibbs.....	427
Dairying instruction at the University of Wisconsin.—Farrington.....	436
Danish farmers make dairying a success.—Georgeson.....	425
Denmark.—Georgeson .....	428
Disposition and training of a dairy animal.—National Stockman.....	429
Do n't starve the calf; neither teach it to make fat.—Roberts.....	410
Each breed is fitted for its pasture.—Wilson.....	414
Ensilage and dry corn-fodder for milch cows.—Prairie Farmer.....	418
Even with butter at 14 cents.—Hoard's Dairyman.....	414
Extension of the creamery system.—Homestead.....	431
Failure of creameries in southern Wisconsin.—Hoard's Dairyman.....	426
Feed for milch cows in winter.—New York experiment station.....	429
Five hundred pounds separator skim-milk saves 100 pounds grain.—Wilson..	416
First thing for every dairyman to do.—Practical Farmer.....	436
First point to be considered in starting a factory.—Linfield.....	419
Food required in proportion to size and weight.—Jackson.....	426
Frost-bitten grass produces thin, poor milk.—Newell.....	420
Functions of a silo.—Robertson.....	435
Further facts in connection with the cow Topsy.—Haecker.....	435
Greatest expense to the farmer is transportation to creameries.—Trueman..	413
Great difference in richness of milk from different patrons.—Linfield.....	420
