

Rolla Clymer correspondence

Section 945, Pages 28321 - 28350

This series of the Rolla Clymer collection includes sent and received correspondence arranged chronologically beginning in 1909. With few exceptions, the correspondence provides a continuous and very complete view of his activities. Much of the earliest correspondence in the Clymer collection pertains to information about the College of Emporia for the period Clymer was a student there. Scattered throughout the remainder of the correspondence is information about Emporia athletics and alumni activities and letters with former classmates. From 1914 to 1918, Clymer was editor and manager of the Olathe, Kansas, Register. In 1918, Rolla Clymer moved his young family to El Dorado, Kansas, where he became editor and manager of the El Dorado Republican. Except for a six month hiatus in 1937 as editor and manager of the Santa Fe New Mexican in Santa Fe, New Mexico, Clymer served the remainder of his professional career in El Dorado.

In his later years, Clymer devoted much of his time to efforts to preserve the Kansas Flint Hills region which he dearly loved. In addition to newspaper editorials, he wrote and published numerous widely circulated articles and poems about the Flint Hills. Perhaps his best known tribute was his poem "Majesty of the Hills," which helped earn him the designation as Poet Laureate of the Flint Hills. Rolla Clymer died on June 4, 1977, having been the editor of the El Dorado Times for fifty-nine years. For a complete contents list of the Rolla Clymer collection, see the External Links below.

WAGE-PRICE FREEZE.....Here is how the wage-price freeze ordered by the Economic Stabilization Agency effective midnight January 25 affects newspapers:

Wages: Until amended, wages, salaries or other compensation in all industries -- including the newspaper business -- are frozen as of midnight, January 25. The wage freeze is covered in the following section of the E.S.A. order:

Wages (Sect. 1, $E_oS_vA_o$ Order): No employer shall pay any employe and no employe shall receive "wages, salaries, and other compensation" at a rate in excess of the rate at which such employe was compensated on January 25, 1951, without the prior approval or authorization of the Wage Stabilization Board. New employes shall not be compensated at rates higher than those in effect on January 25, 1951, for the jobs for which they are hired.

Prices: Newspaper advertising and circulation rates are exempt from control in the Defense Production Act of 1950 and the E. S. A. price freezing order of January 26,1951. The Defense Production Act, public law 774, reads:

"Prices or rentals for (a) materials furnished for publication by any press association or feature service, or (b) books, magazines, motion pictures, periodicals, or newspapers, other than as waste or scrap; or rates charged by any person in the business of operating or publishing a newspaper, periodical, or magazine, or operating a radio-broadcasting or television station, a motion picture or other theater enterprise, or outdoor advertising facilities....."

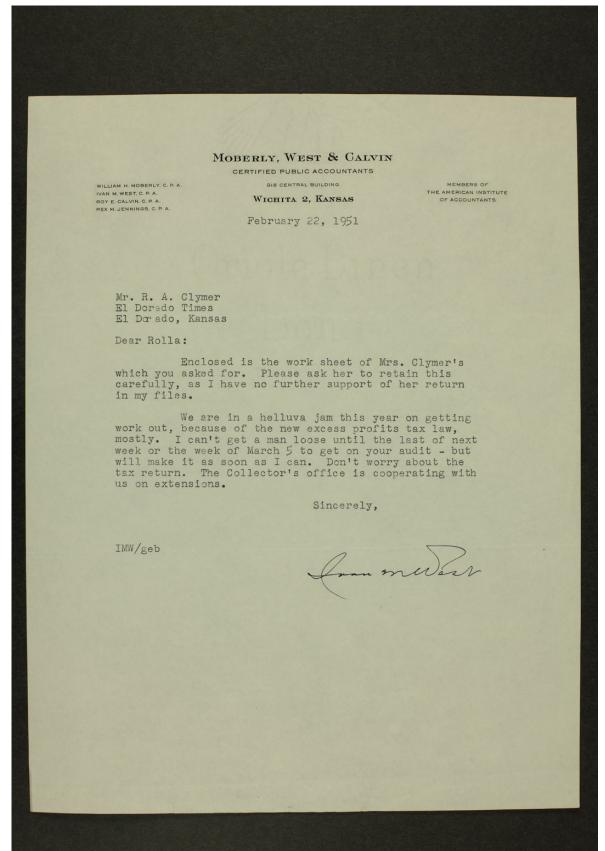

Pleast note this does not exempt prices charged for job printing, only those in the production of a newspaper.

Record Keeping: While newspapers are exempt from preserving price and cost records for the base period of May 24 to June 24, 1950, as provided in the Defense Production Act of 1950, it is suggested that publishers preserve their price and cost records for that period for possible future need.

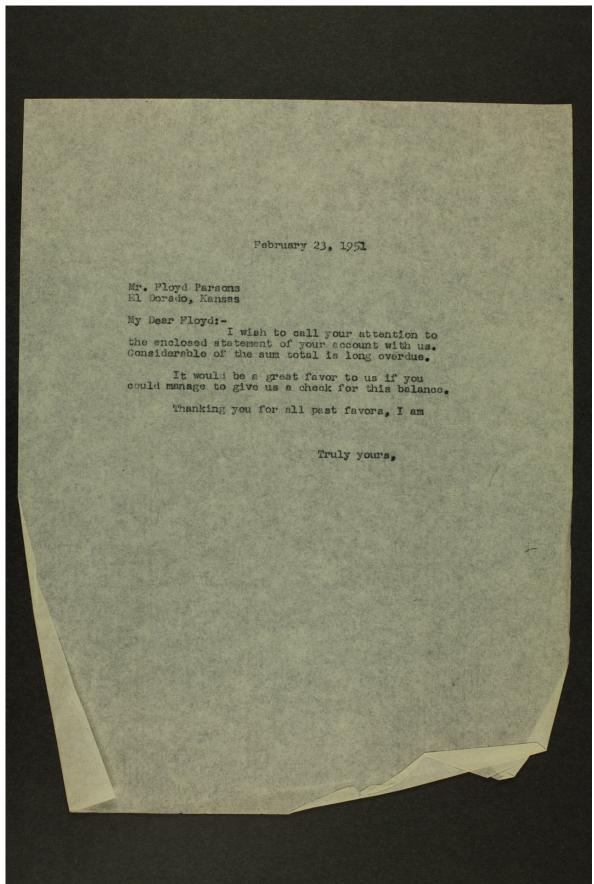

Construction: The National Production Authority has placed a ban on all new commercial Construction. However, an interpretation as to the scope of this order, obtained by the NPA Printing and Publishing Division, shows that it is inapplicable to newspaper publishing. The ruling specifies that the limitation on construction does not apply to printing or publishing plants in connection with the production of newspapers, magazines, or books. However, it has been held that the terms of the order do apply to job printing establishments, blue print shops, etc.

Personnel: The National Production Authority has established a Printing and Publishing Division, and the first Director of this Division is Arthur B. Treanor of the Booth Newspapers in Michigan. Treanor served as Director of this Division when it was a part of W. P. B. during World War II. Deputy Director is Donald C. Shook, who also served during World War II.

February 23, 1951

HOUSE BILL NO. 224 has passed the House of Representatives and is on its way to the Senate for consideration. This bill will force third-class cities to run a semi-annual financial report itemizing all expenditures made. It will force cities of the second class to publish a semi-annual report and classify their expenditures. The bill is as follows:

"Section 1. Section 12-1608 of the General Statutes of 1949 is hereby amended to read as follows: Sec. 12-1608. That the treasurer of each and every city shall publish or cause to be published in some newspaper published in such city, or if there be no newspaper published in such city then in some newspaper published in the county in which such city is located and having a general circulation in such city, within twenty (20) days after the quarter ending in March, June, September and December of each year, a statement showing the total amount received into each fund and the total amount expended from each fund, and the cash balances of each fund at the beginning and close of each quarter; Provided, That in cities of the second class such report shall semi-annually classify the expenditures by showing total wages and expenses paid to each claimant against the city during said quarter; Provided further, That in cities of the third class such report shall semi-annually itemize all expenditures made by showing the date of the warrant, purpose for which drawn, amount, and to whom paid: Provided, Such quarterly statement shall show the amount of outstanding registered warrants, temporary notes, bonds and all other obligations and liabilities of the city.

Sec. 2. Section 12-1608 of the General Statutes of 1949 is hereby repealed.

Sec. 3. That this act shall take effect and be in force from and after its publication in the statute book."

My best scouts tell me that this bill will have a very difficult time getting through the Senate, and we are sending you this Bulletin with the hope that you, as a publisher, will contact your state senator and urge his favorable consideration of the bill. If the bill receives favorable consideration, it will be because you, as a publisher friend of the senator, urged his consideration. The cities have their own lobby, and it really doesn't take a hero to kill a bill. It takes a hero to pass one, and you're the only guy that can be a hero in this picture. Now please, if you desire this legislation, sit down and write your senator, sending a carbon copy of your correspondence to the KPA office, because we often are able to learn things that will assist in securing favorable legislation, from your correspondence. H.B.224 passed the House with only one nay vote. There were 17 absent, but only one nay, which was voted by Rep. Starrett of Norton.

HUGH H. MORRISON, Pratt

REPUBLICAN CENTRAL COMMITTEE OF PRATT COUNTY

PRATT, KANSAS

February 24,1951

Senator Paul R.Wunsch State Capitol Topeka, Kansas

Dear Senator,

The people of this county are not in favor of the House bill to disorganize the present Fish and Game Commission.

We have confidence in the present Commission and think they are doing a good job.

It would not seem to be good politics to disturb a bipartisan set-up and make it partisan just because the Republicans
are in power.

The Wichita Eagle of February 18,1951, makes a good statement of this case under the headline "Trouble Signs Begin To Stir In Legislature",

"Another water-rippling controversy that may arise concerns proposed reorganization of the State Forestry, Fish & Game Commission. The proposal is to reduce the present board of six commissioners to four. It would give Governor Edward F.Arn the right to fire the six commissioners and name new ones. The governor also would name the new director. The six commissioners now appoint the director. This proposed set-up would, of course, increase the power and patronage of the governor's office.

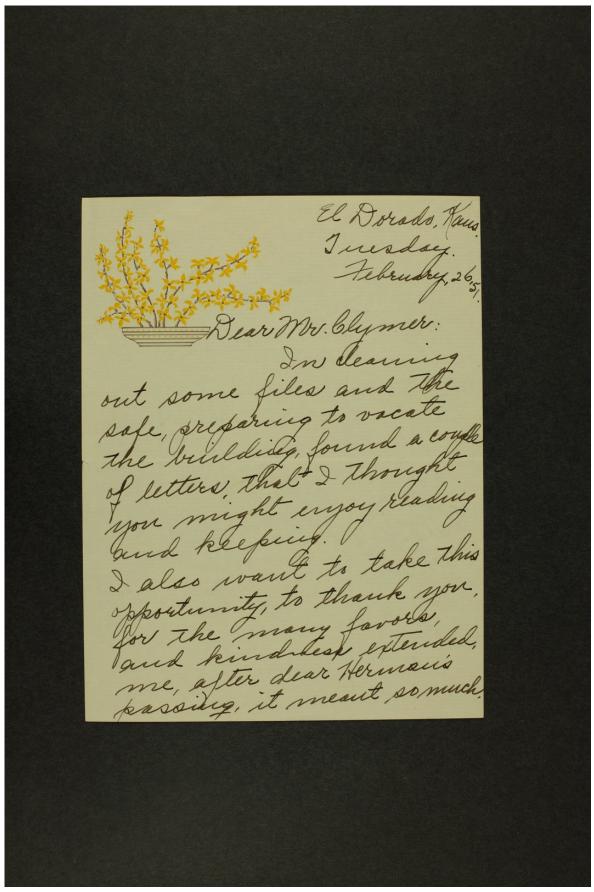

What the kick about the present set-up is has never clearly been stated. This commission has been running the bureau in a business like way holding out against patronage demands and conserving its resources. As much progress as possible has been made in a state with oiltainted streams and no great amount of cover for wildfowl. Many are against the change and firing on the proposal, if it gets to the debating stage, will be hot and heavy."

Sincerely yours,

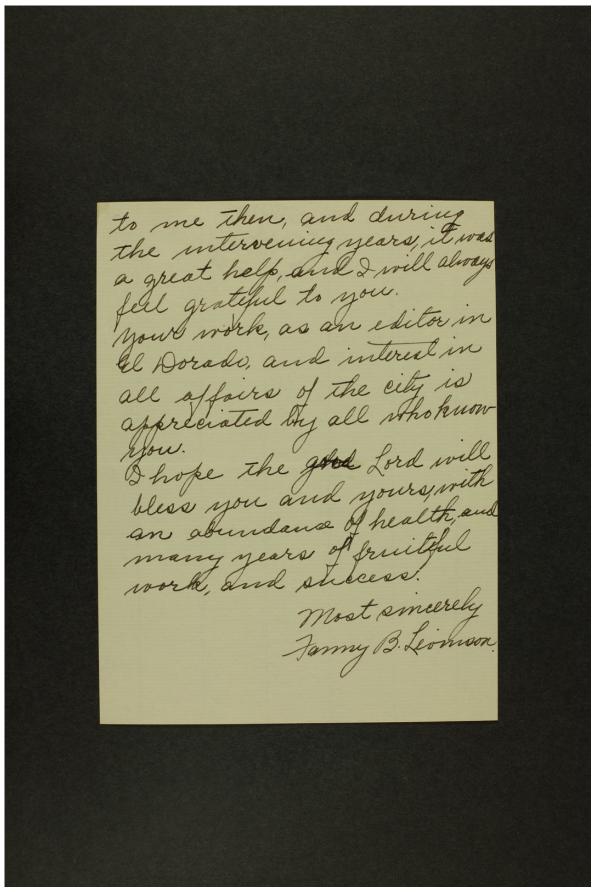

RWR:bd

cc: Governor Edward F.Arn Topeka, Kansas Richard W. Robbins
