Calf Creek Projectile Point from Greenwood County

Calf Creek projectile points are defined as having deep parallel-sided basal notches. This one was found in Greenwood County and donated to Kansas Historical Society in 1984. These distinctive dart points are generally found in eastern Kansas and states to the east and south during the late Paleoindian Period.

Date: 4800-4200 BCE

Callnumber: 14GR 1984.C.105

KSHS Identifier: DaRT ID: 310101

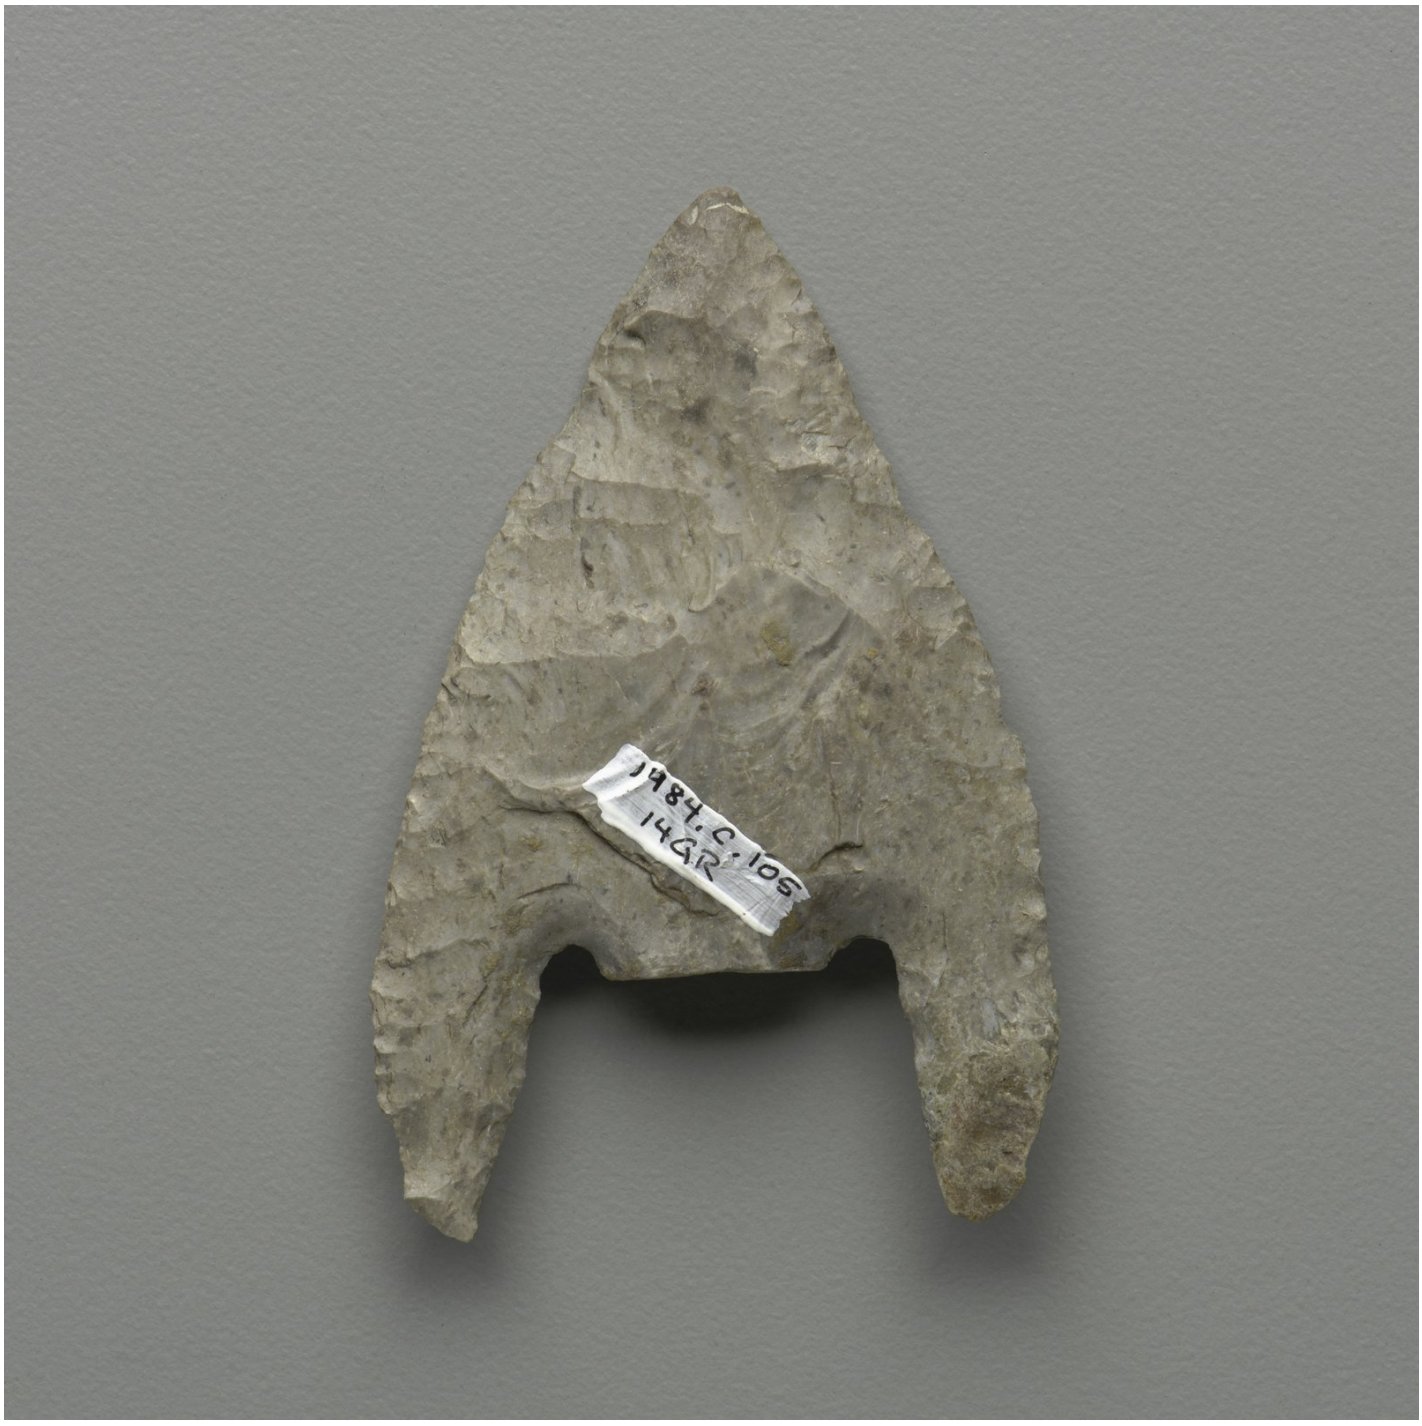

Item Identifier: 310101
