FiatAgri Hesston calendar

Located in the heart of fertile Kansas farm country, Hesston Corporation was built on the solid traditions of the men and women who broke the prairie and created what is known today as the "breadbasket of the world." As agriculture developed and eventually mechanized, innovation became the key to increased farm efficiency. Hesston has been a proud contributor to the increased efficiency of the modern farm by the timely introduction of new products designed to make a farmer's work go faster and easier. As farm equipment matured, Hesston did, too. An alliance with the Fiat Group led to a worldwide strategy that

has moved Hesston toward major line status. More importantly, the alliance gives Hesston the resources to weather the uncertainties existing in today's marketplace. Today, Hesston stands poised at the crossroads, ready to take a leadership role into the future. The tradition of innovation which gave the company its start, continues to provide impetus for growth in the 1980s and beyond. The products featured in this calendar are examples of the inventiveness and dedication to quality shown by the employees of Hesston Corporation.
