

## **Ceramic Pipe from the Radio Lane Site, 14CO385**

This ceramic pipe fragment was excavated at the Radio Lane site in Cowley County. Incised lines and triangles surround the bowl fragment. Traces of dottle (tobacco residue) remains in the pipe bowl's interior. The site was a large Great Bend aspect (ancestral Wichita) village. Kansas Historical Society archeologists and crew excavated there during a Phase IV archeological investigation in 1995.
