Mr. F. D. Hall
Box 823
Wichita, Kansas.

My dear Mr. Hall:

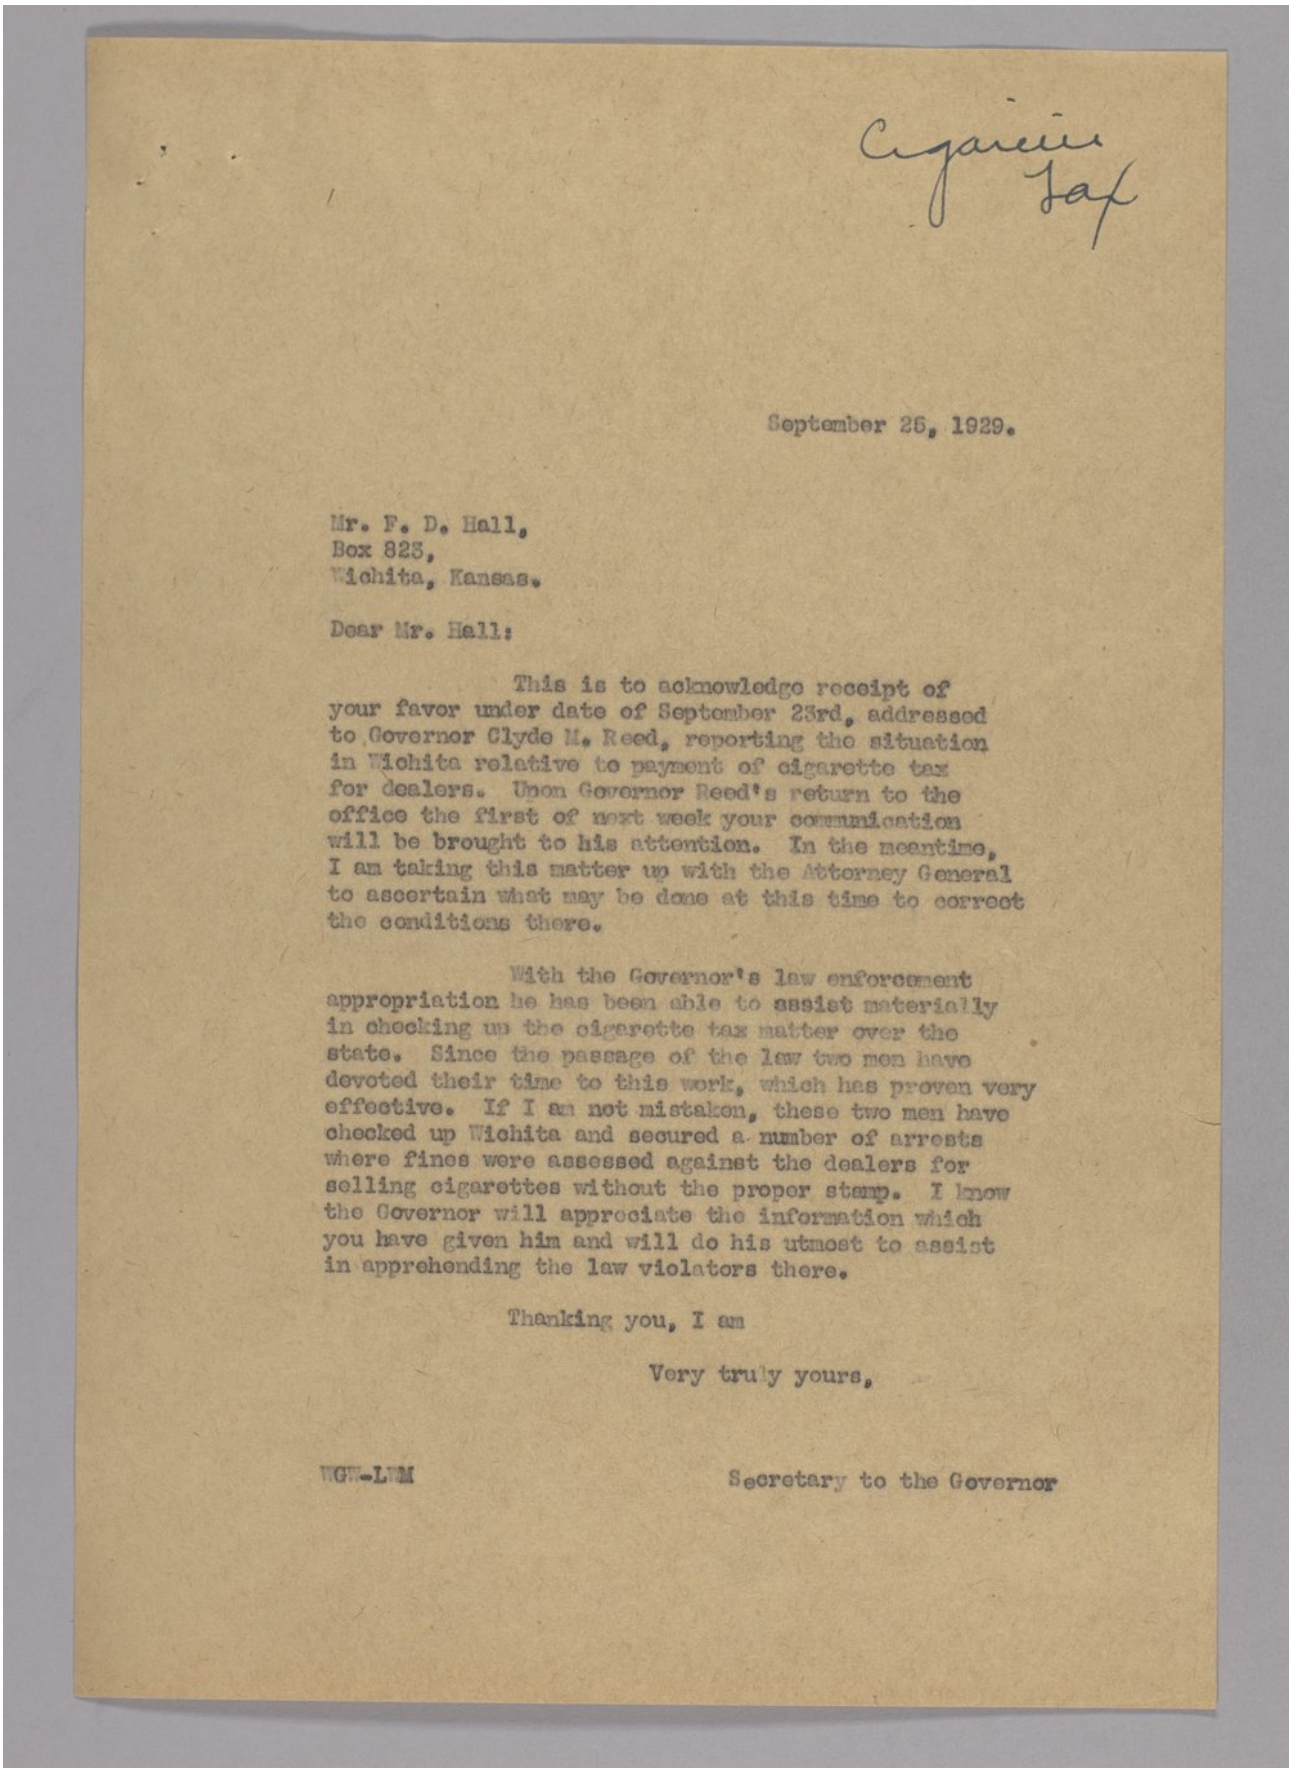

Mr. West has called my attention to your letter of September 23 and his reply of the 25th.

He has correctly stated the situation, and I am asking the Attorney General to have the two investigators who are devoting their time to checking up on the cigarette stamp law observance to go to Wichita and spend as much time as can be profitably used in investigating matters there.

Very truly yours,

Governor

September 26, 1929.

Mr. F. D. Hall,
Box 823,
Wichita, Kansas.

Dear Mr. Hall:

This is to acknowledge receipt of your favor under date of September 23rd, addressed to Governor Clyde M. Reed, reporting the situation in Wichita relative to payment of cigarette tax for dealers. Upon Governor Reed's return to the office the first of next week your communication will be brought to his attention. In the meantime, I am taking this matter up with the Attorney General to ascertain what may be done at this time to correct the conditions there.

With the Governor's law enforcement appropriation he has been able to assist materially in checking up the cigarette tax matter over the state. Since the passage of the law two men have devoted their time to this work, which has proven very effective. If I am not mistaken, these two men have checked up Wichita and secured a number of arrests where fines were assessed against the dealers for selling cigarettes without the proper stamp. I know the Governor will appreciate the information which you have given him and will do his utmost to assist in apprehending the law violators there.

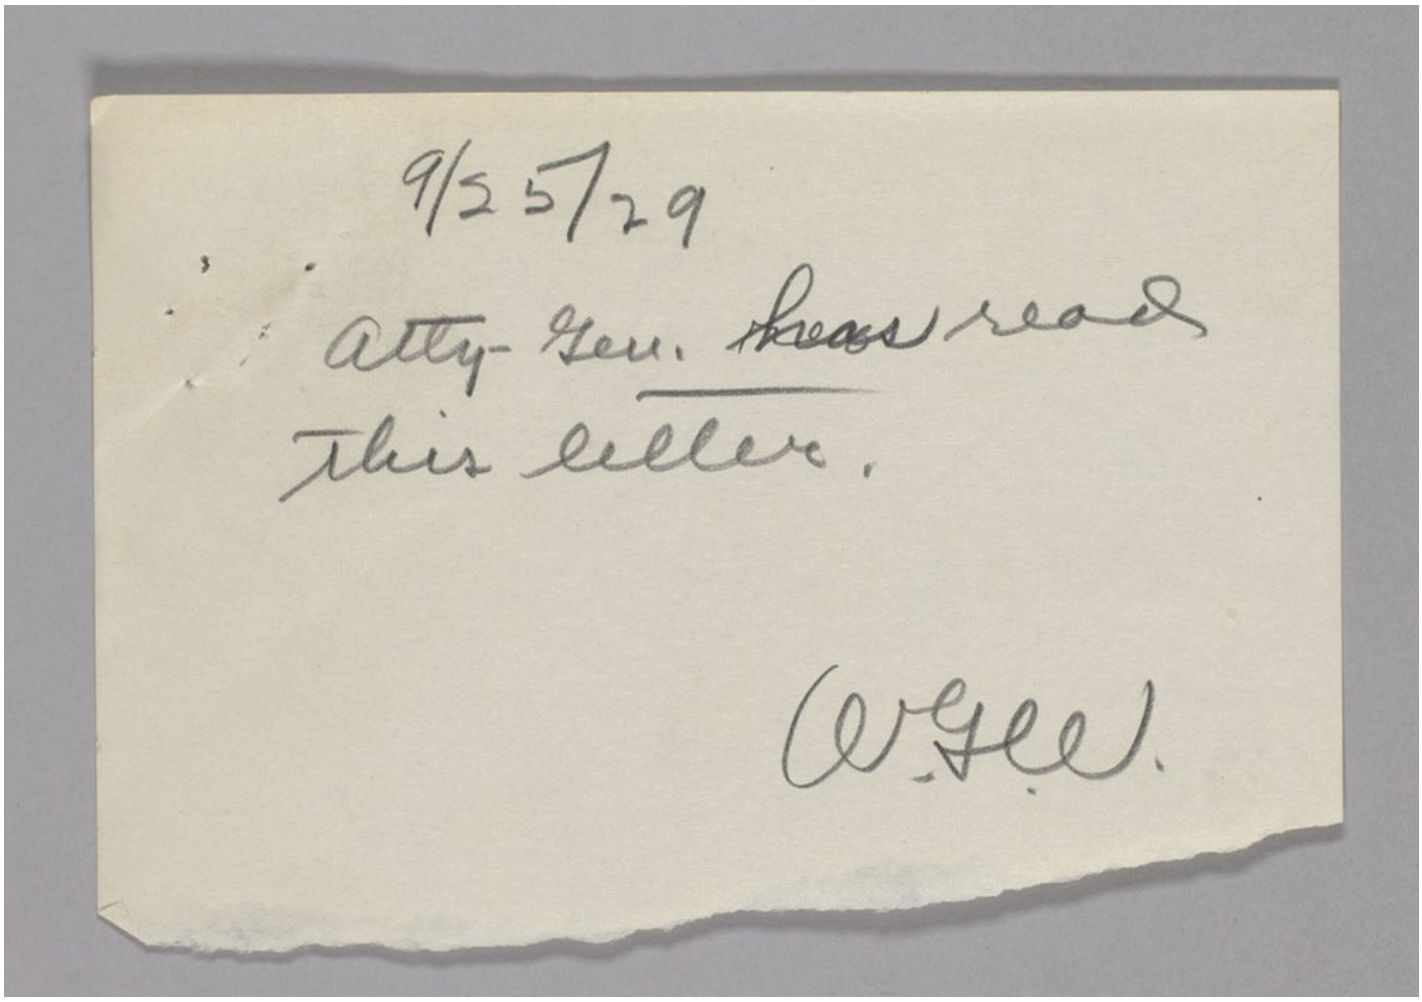

Thanking you, I am

Sept. 23, 1929.

Hon. Clyde M. Reed, Governor,

Kansas.

My dear Governor:

I am taking the liberty to write you about a matter of taxation that is beyond the scope of the work of our Commission, revealing to you a situation which I believe should have the attention of the Executive Department of the Government.

In talking to a committee of merchants in Wichita relative to sales tax, one of the prominent chain drug store owners complained bitterly over the enforcement of the cigarette tax law and made the statement that in his opinion 25% of the merchants in Wichita were not paying the tax or affixing the stamp.

I challenged that statement and then went out myself to a wayside merchant in the city, purchased a package of cigarettes and found no stamp thereon. I then asked this merchant if he could make an investigation and make a list of names of those who were evading this tax.

His manager called today and told me he had compiled a list of names of licensed merchants who were not putting on the stamp. He has been making an extensive survey and claims that 60% of those who are licensed to sell cigarettes in Wichita are not collecting or paying this tax.

Since the information came from a source that can hardly be challenged and since this list of the violators

is available, it seems to me that as a good citizen and one now interested in the matter of taxation, I should call it to your attention.

I know you will appreciate it is very unfair to the honest merchants who do comply with the law to permit a situation as outlined to long exist. I do not know what machinery there is available for the enforcement of these collections but it seems that local officials are interested only in the collection of the license fees and are inclined to leave the burden of the state tax to the state officials.

If it were possible for you to send an investigator here, I will be glad to introduce him to Harry Dockum, the merchant in question, or to his manager, Mr. Floyd Irving, who has made this survey and compiled the list of those dealing in cigarettes who should be made to pay the tax.

A little quiet work on the part of an investigator with a few prosecutions would have a very salutary effect and it would seem that the revenue could thereby be greatly increased.

I am writing this letter to you not as a member of the Tax Code Commission, although the information came to me largely because of my place on that Commission.

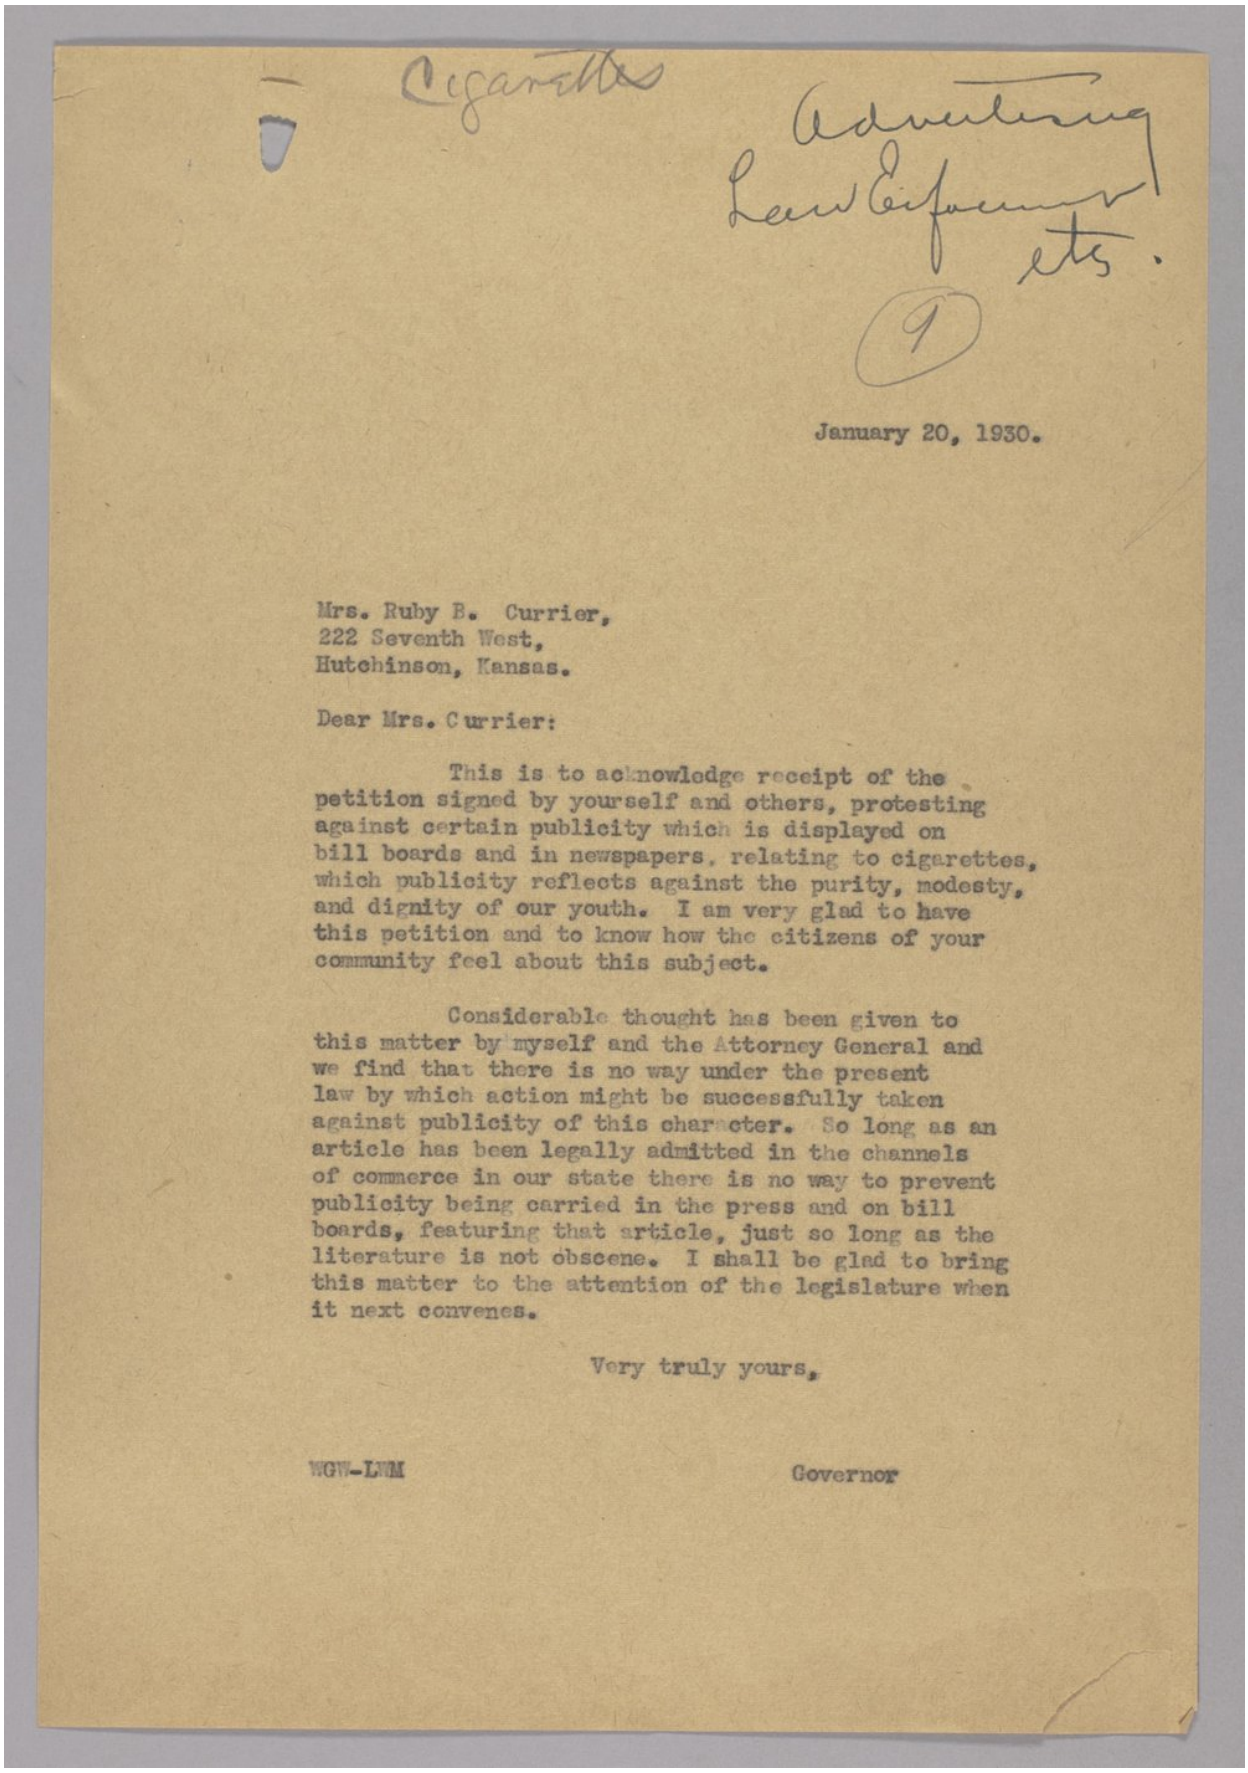

Yours truly,

Dear Mrs. Currier:

This is to acknowledge receipt of the petition signed by yourself and others, protesting against certain publicity which is displayed on bill boards and in newspapers, relating to cigarettes, which publicity reflects against the purity, modesty, and dignity of our youth. I am very glad to have this petition and to know how the citizens of your community feel about this subject.

Considerable thought has been given to this matter by myself and the Attorney General and we find that there is no way under the present law by which action might be successfully taken against publicity of this character. So long as an article has been legally admitted in the channels of commerce in our state there is no way to prevent publicity being carried in the press and on bill boards, featuring that article, just so long as the literature is not obscene. I shall be glad to bring this matter to the attention of the legislature when it next convenes.

Very truly yours,

PETITION FOR LEGISLATION REGULATING ADVERTISEMENTS OF CIGARETS AND TOBACCO.

WHEREAS, the youth and women of Kansas are precious assets of our state and nation,

AND WHEREAS, there is a tendency of certain modern commercial interests (particularly the tobacco interests) to use the purity, modesty and dignity of our youth and women in advertisements displayed on billboards and newspapers,

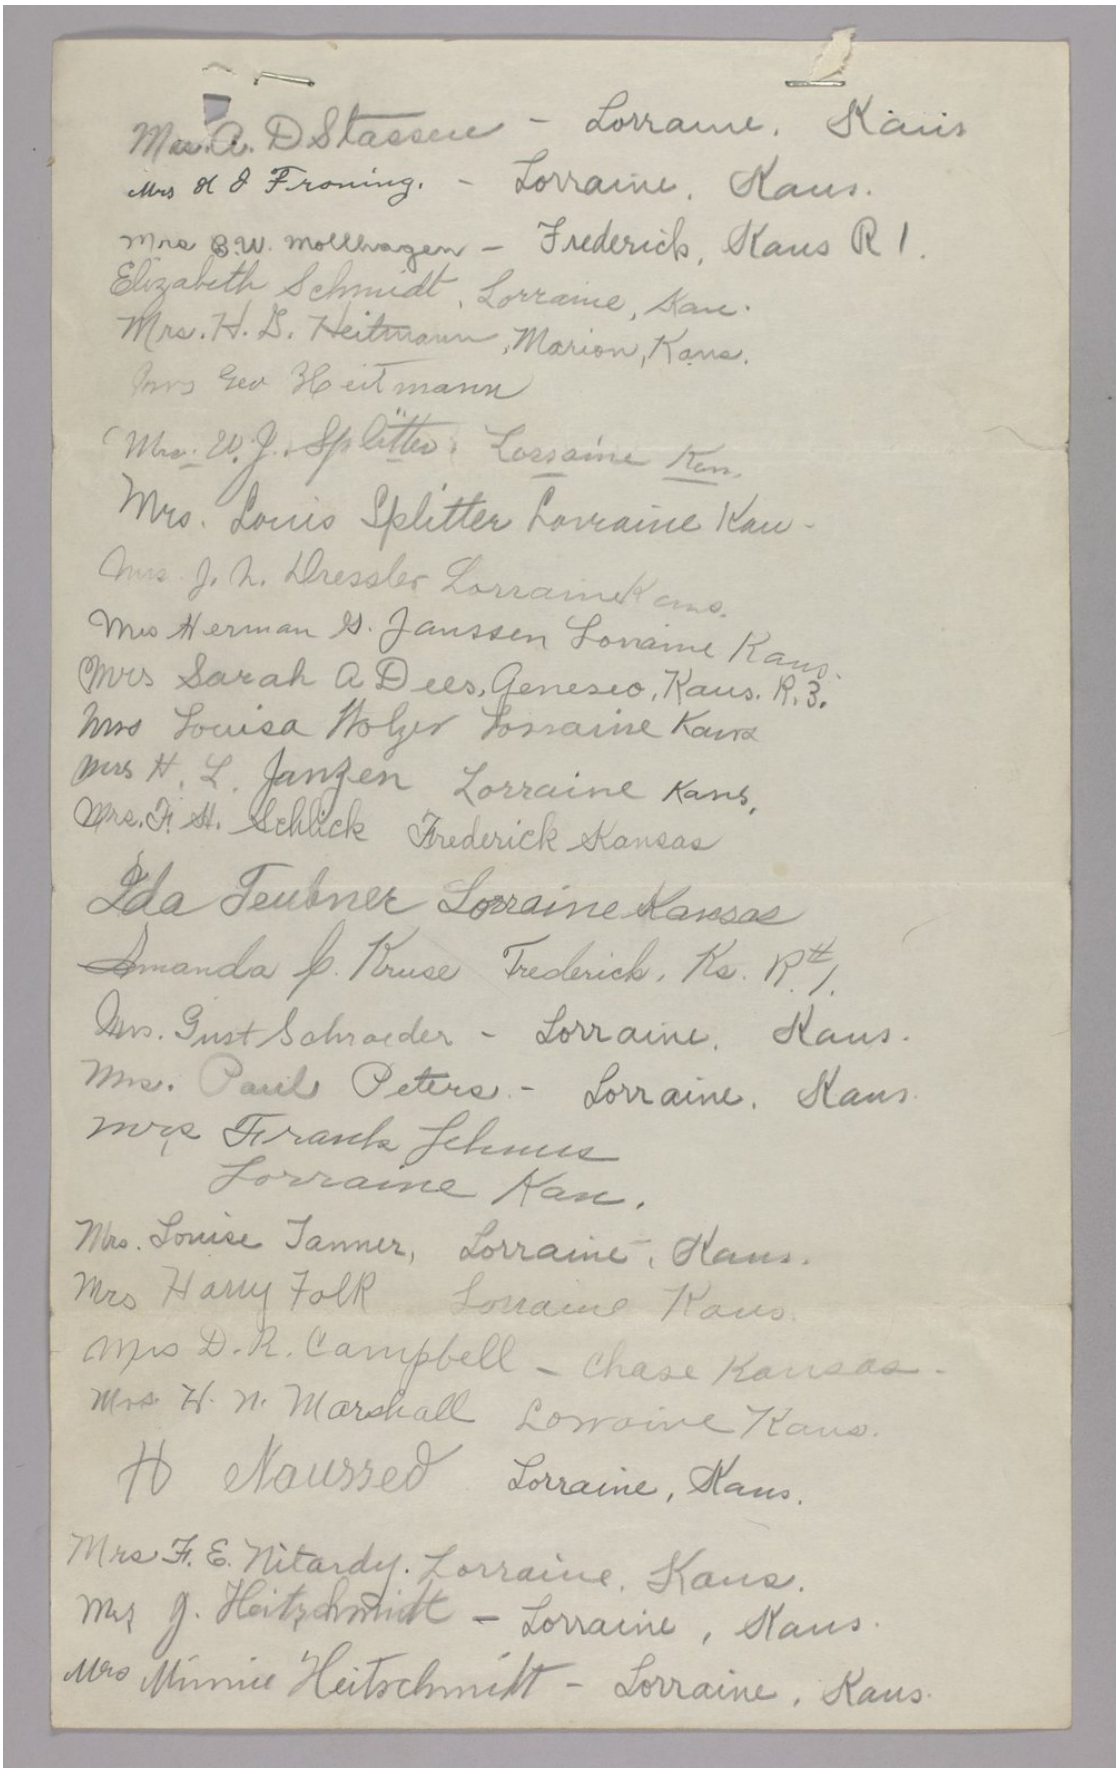

AND WHEREAS, we believe such advertisements tend to destroy the morale of youth and women,

THEREFORE, We, the undersigned electors of the State of Kansas, hereby deplore, protest and severely condemn all commercial advertising--particularly billboards and newspapers--that by picture, catch phrase or slogan, use, or attempt to use, the pure, noble and dignified spirit of youth and women to advertise the alleged merits of cigarets and tobacco.

And we further hereby respectfully petition that you, as chief executive of the State of Kansas, urge such legislation as will prohibit such advertisements in newspapers and billboards that by picture, word or phrase use the purity and dignity of youth and women to sell cigarets or tobacco, or edify the use of cigarets and tobacco by youth and women.

Hutchinson, Kansas

My dear Mrs. Hall:

This is to acknowledge receipt of petition signed by yourself and others of Reno County, protesting against certain advertisements on bill boards and in newspapers by the cigarette and tobacco interests, and urging the Governor's support of legislation which will prohibit such advertising.

Governor Reed has made an investigation of this matter and finds that there is no way to proceed in a legal fashion to prohibit advertisements of this character as long as such advertisements are not classified as obscene. This is rightfully a subject for the legislature to deal with and as long as cigarettes and tobacco are articles of legitimate commerce, there can be no control of the matter.

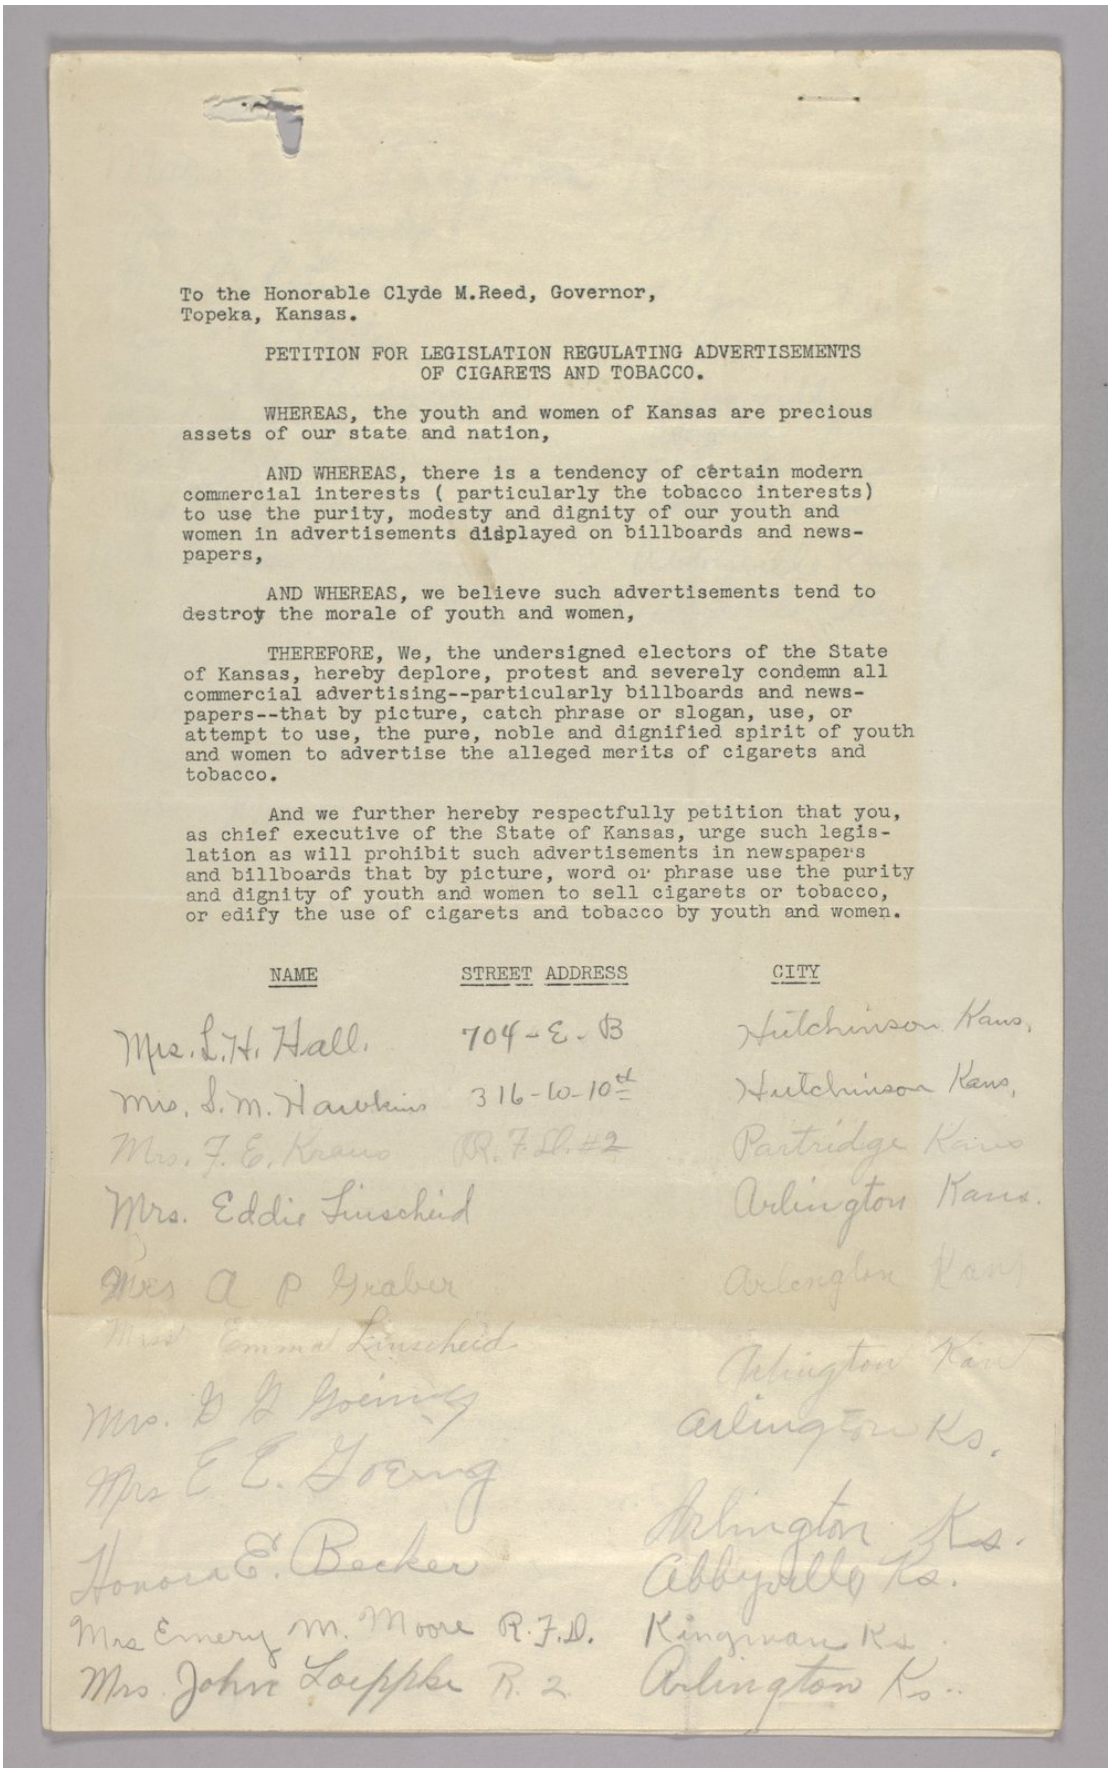

Governor Reed is glad to have your views on this subject and will give careful consideration to any suggestions which you and the other good women of Reno County might see fit to offer.

Very truly yours,

Secretary to the Governor

Hutchinson, Kansas.

Dear Mrs. Thomson:

I am in receipt of your letter under date of January 29th with attached petition signed by 875 persons protesting against certain cigarette advertising which appears upon the billboards.

I appreciate very much the interest which you and the large number of others have shown in this matter. I might say that I have given this matter much thought and have advised with the Attorney-General and find that there is nothing that the Governor can do to correct the situation.

The legislature has legalized the traffic in cigarettes and for that reason advertising both in the press and on billboards is legal just so long as it is not obscene. This is a matter which the legislature must necessarily consider and you may be assured that when it convenes your petition will be referred to the proper committees for attention.

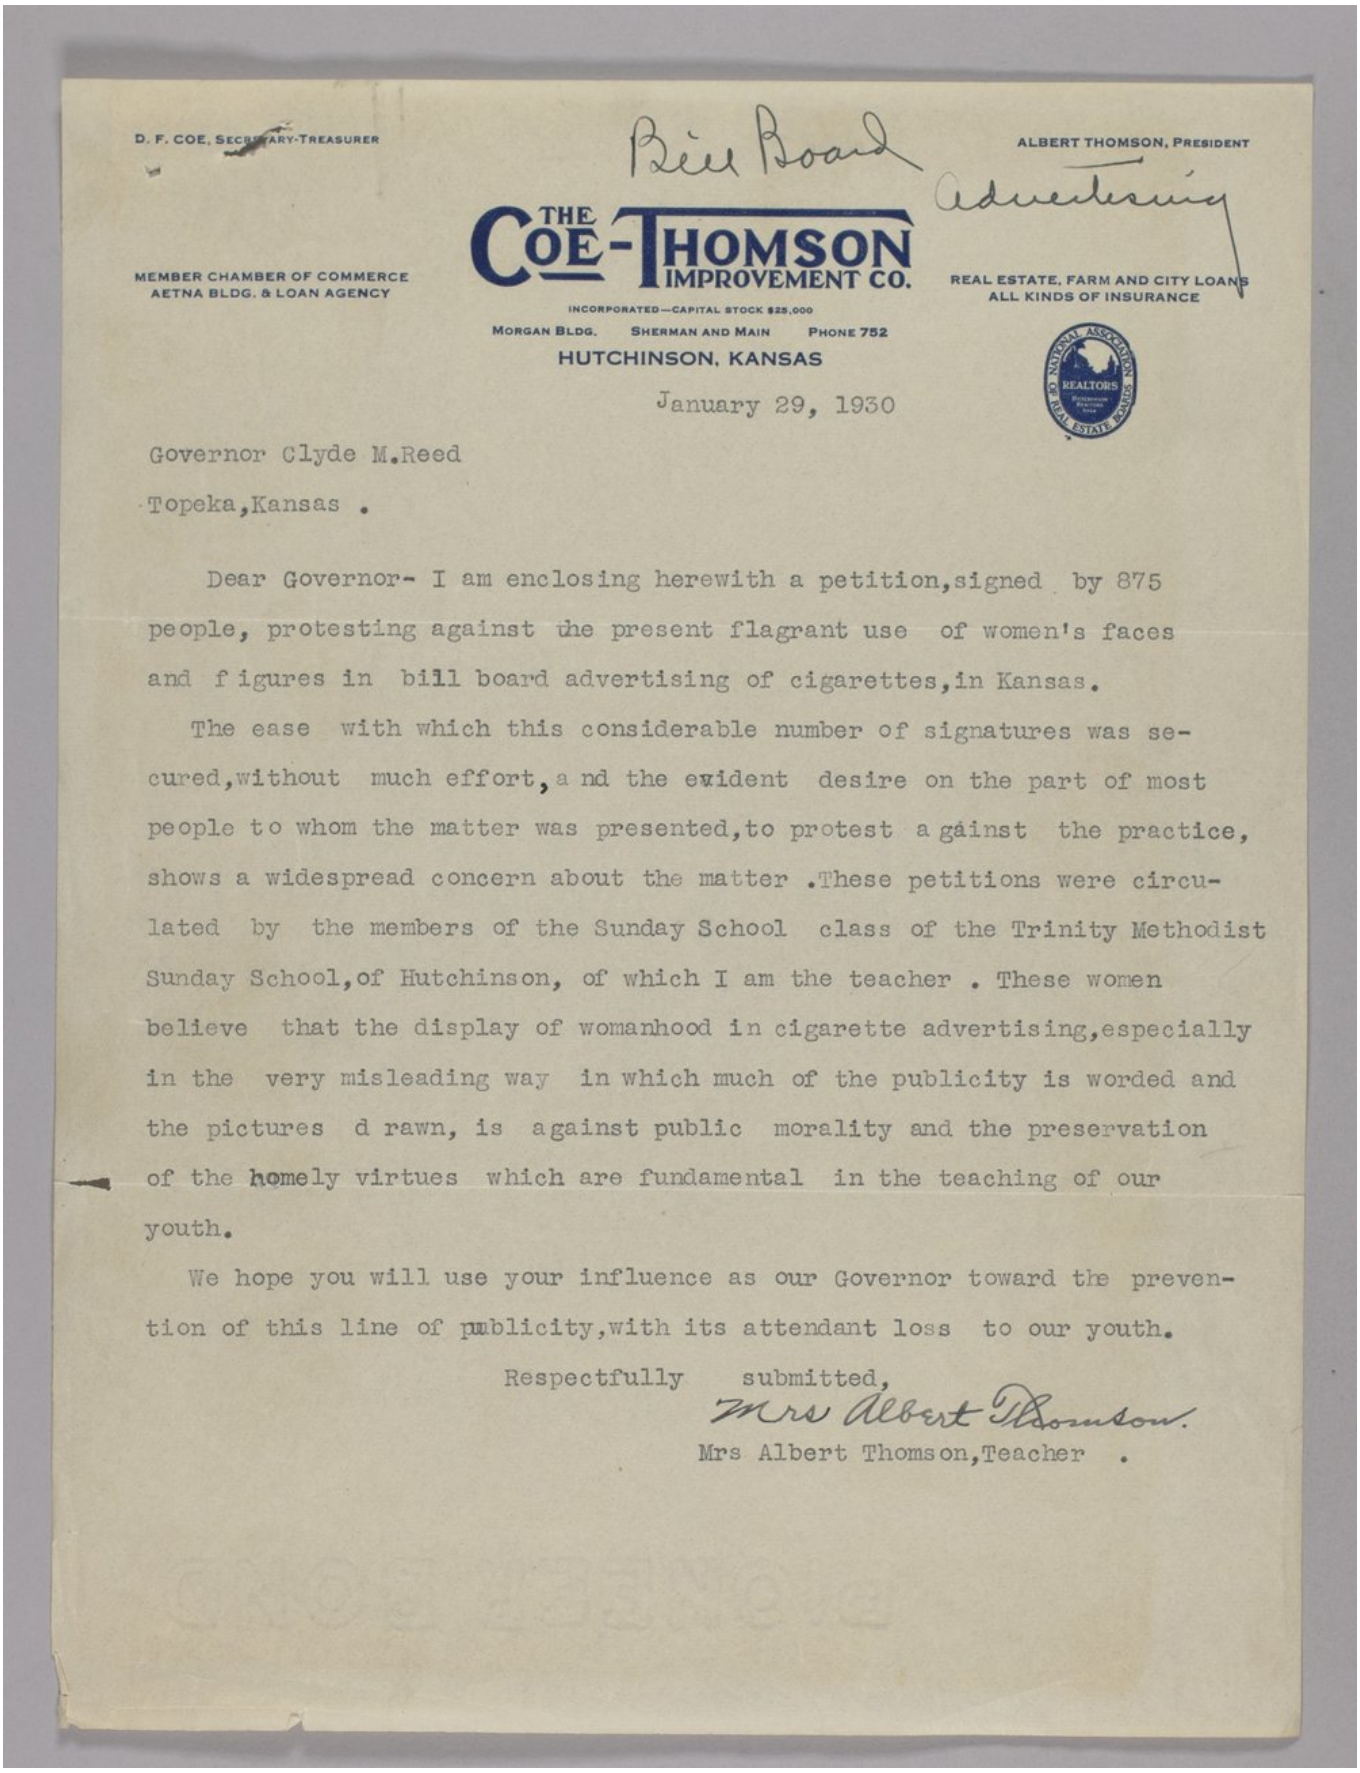

Thanking you for writing to me on this subject, I am

Cordially yours,

Governor Clyde M.Reed

Topeka,Kansas .

Dear Governor- I am enclosing herewith a petition,signed by 875 people, protesting against the present flagrant use of women's faces and figures in bill board advertising of cigarettes,in Kansas.

The ease with which this considerable number of signatures was secured,without much effort,and the evident desire on the part of most people to whom the matter was presented,to protest against the practice, shows a widespread concern about the matter .These petitions were circulated by the members of the Sunday School class of the Trinity Methodist Sunday School,of Hutchinson, of which I am the teacher . These women believe that the display of womanhood in cigarette advertising,especially in the very misleading way in which much of the publicity is worded and the pictures drawn, is against public morality and the preservation of the homely virtues which are fundamental in the teaching of our youth.

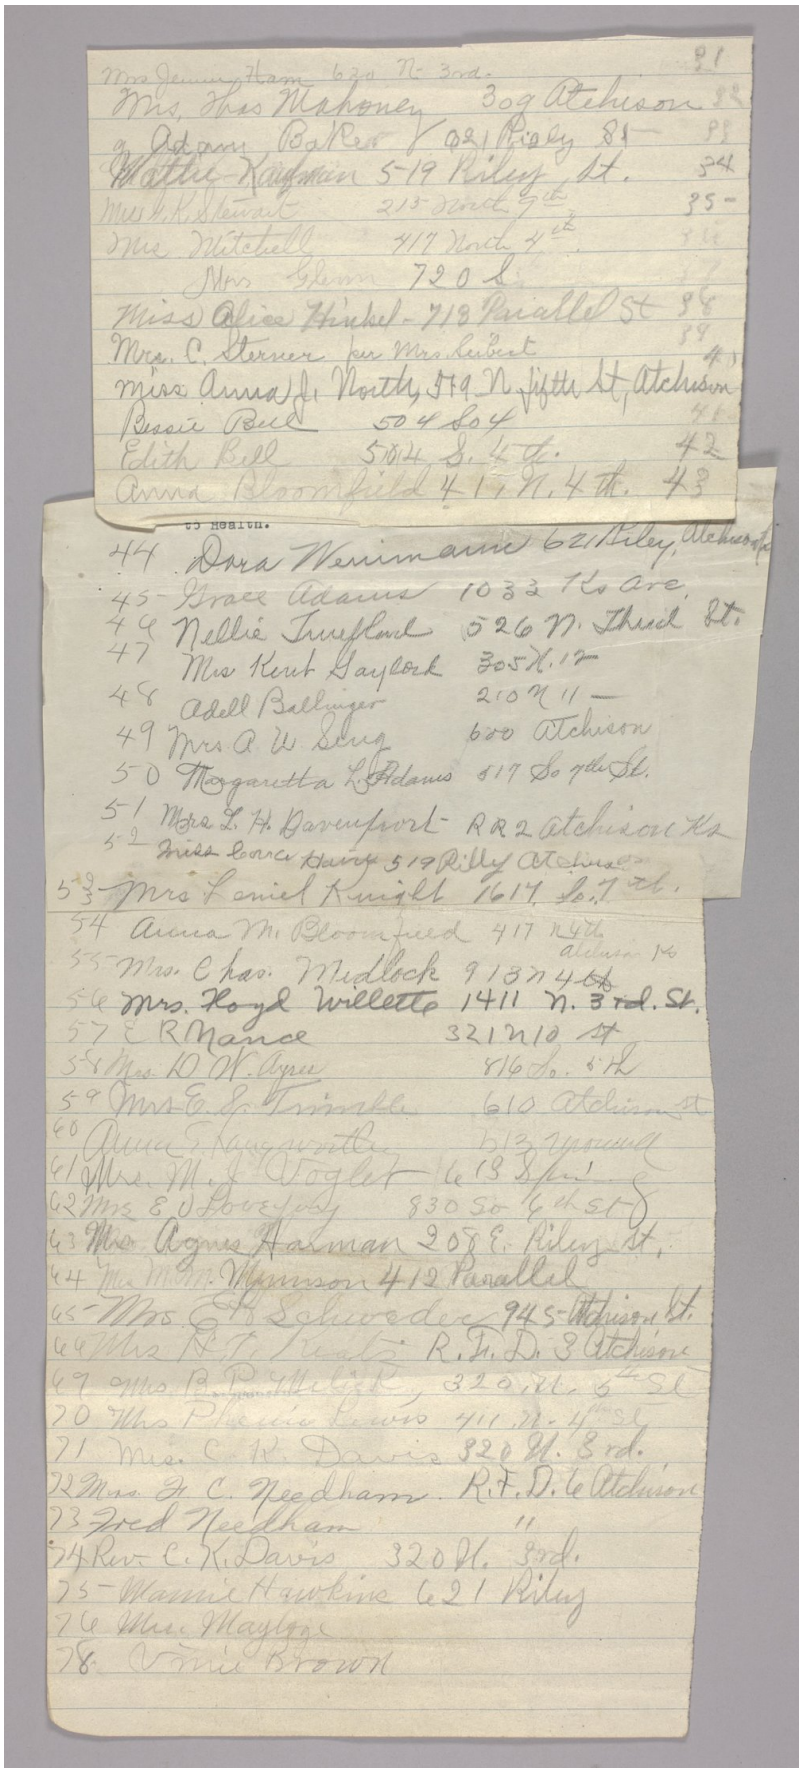

We hope you will use your influence as our Governor toward the prevention of this line of publicity,with its attendant loss to our youth.

Respectfully submitted,

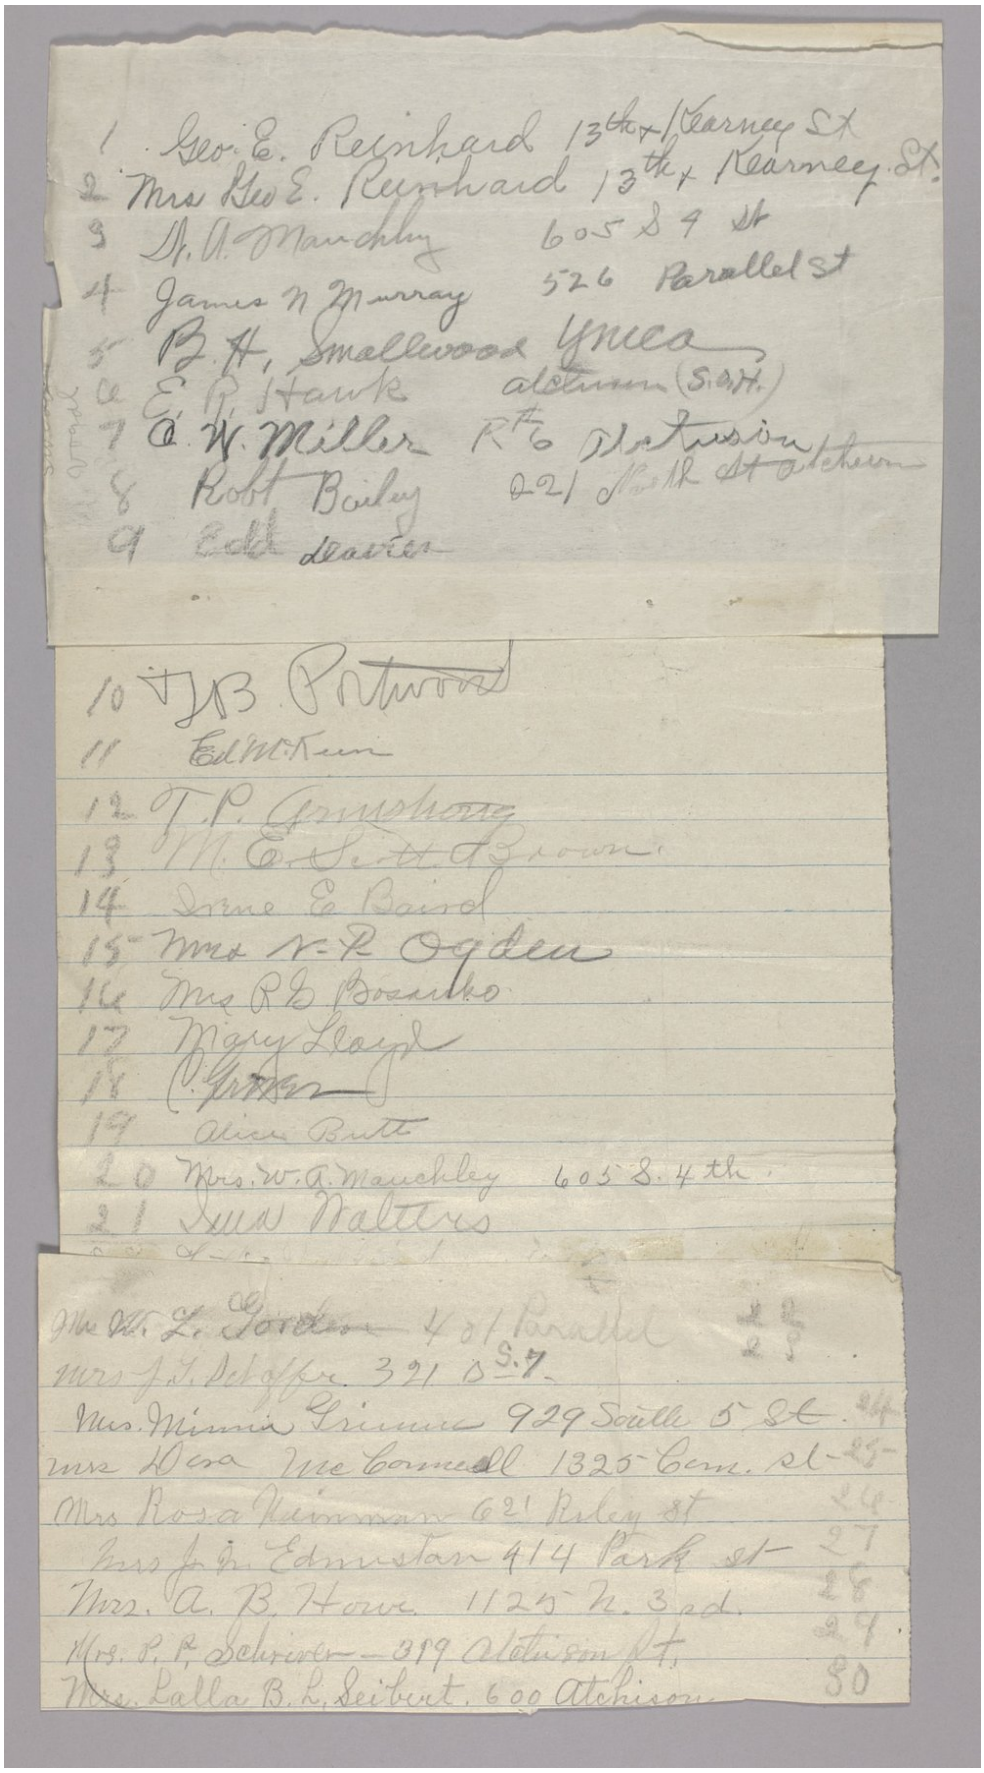

Mrs Albert Thomson.
