# Territorial Census, 1855, District 16

### Section 1, Pages 1 - 30

This census was taken in order to determine eligible voters for elections to be held as proclaimed by Governor Andrew Reeder on November 10, 1854. The categories for information in the census were name, occupation, age, gender, emigrated from, native of United States, naturalized citizen, declarant (intention to become a citizen), Negro, slave, and voter. Only white males over twenty-one were eligible to vote. The districts used for the census were the same as the election districts. A statistical summary of the census followed the enumeration pages. For District 16, the place of election was the house of Keller & Kyle, in Leavenworth City. The boundaries of each district were described in Governor Reeder's proclamation, and it is difficult to determine what counties were in each district. The description of the District 16 follows: "Commencing at the mouth of Salt Creek; thence up said creek to the Military road; thence along the middle of said road to the lower crossing of Stranger Creek; thence up said creek to the line of the late Kickapoo reservation; and thence along the said line to the Thirteenth District; and thence by the same along a line corresponding to the courses of Stranger Creek, and keeping three miles west thereof, the Kansas River; thence down the Kansas River to the Missouri River to the place of beginning."

# Territorial Census, 1855, District 16

Precept

To Charles Leib

You are hereby appointed to take the Census of the inhabitants and qualified Voters of the 16th Election District of the Territory of Kansas. The Act of Congress organizing the Ty. requires not only an Enumeration of the Inhabitants but also of the Qualified Voters and as the Law commits solely to my discretion the mode of taking & Returning I have caused books to be prepared by which we shall acquire some statistical information which will be interesting to the nation and useful as well to the People as the Legislature. In this Book you will find the Columns prepared accordingly. In noting the age you will write in the proper column for those under Twenty one the word "Minor"; for those between 21 & 30 - the figures "21"; and for those between 30 & 40 - between 40 & 50 - between 50 & 60 and above 60 write always the lower number. In noting males females, natives of the U.S. naturalized citizens declarants (meaning those who have declared before some proper Court their intention to become citizens) qualified voters negroes and Slaves it will only be necessary to make a mark or figure in the proper column. These columns of marks you will cast up carefully on each page and at the end of the book cast up the several column totals of each class so as to shew the Aggregate of each. You will ascertain and state the total of each Kind of Occupation. The column for occupations will of course be a blank for minors who have none and females. In entering the place whence emigrated from you will name the State or Ty. of the U.S. or the foreign Country which was the last place of residence, and you will ascertain from this column and carry to the end of the book the number from each place named. You will not include any Officers or Soldiers of the Army or persons attached to troops in the Service of the U.S. unless they intend to remain and reside in the Ty. when not on Service. Nor will you include any Indians or persons of Indian blood.

As this is an enumeration of Inhabitants not of Property you will enter the name of no man on reason of his owning or claiming land here or of his intention to come here but only those who actually dwell here at the time of taking this census.

In noting the qualified voters you must ascertain from your own observation and the best information you can obtain who are entitled to be so designated. A qualified voter must be free - of white blood - twenty one years of age and an actual resident in good faith of the Ty. dwelling here with the intention of making it his home.

As it may become necessary in the formation of Representative and Council Districts to divide the District here allotted to you it will be well to preserve in notes on the blank pages some information as to the numbers of the Inhabitants with reference to known localities and natural boundaries, or at least so to take the enumeration that you can communicate to me the information on this head which will enable me to make the necessary notes.

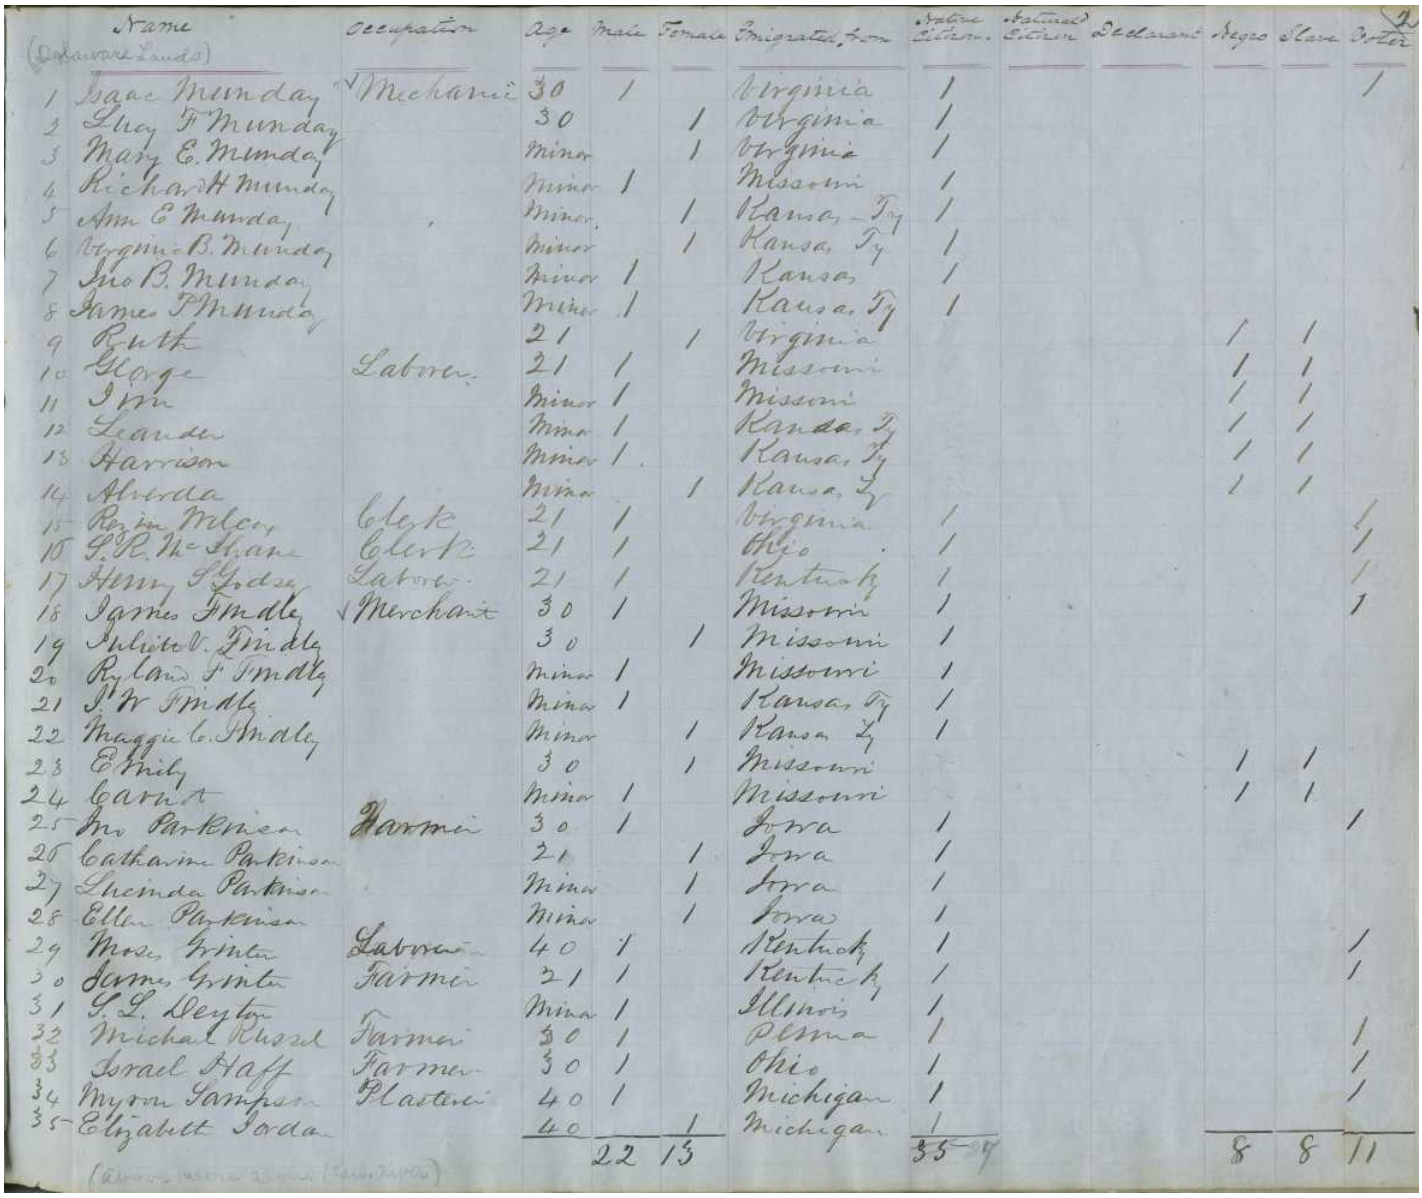

Before making return of this Book you will prepare from it and return with it an Alphabetical list of the qualified voters. You will make return to me personally on the Twelfth day of February next when you will be expected to make the Oath entered at the end of the Book.

Issued this 23d day of January A.D. 1855

A. H. Reeder.

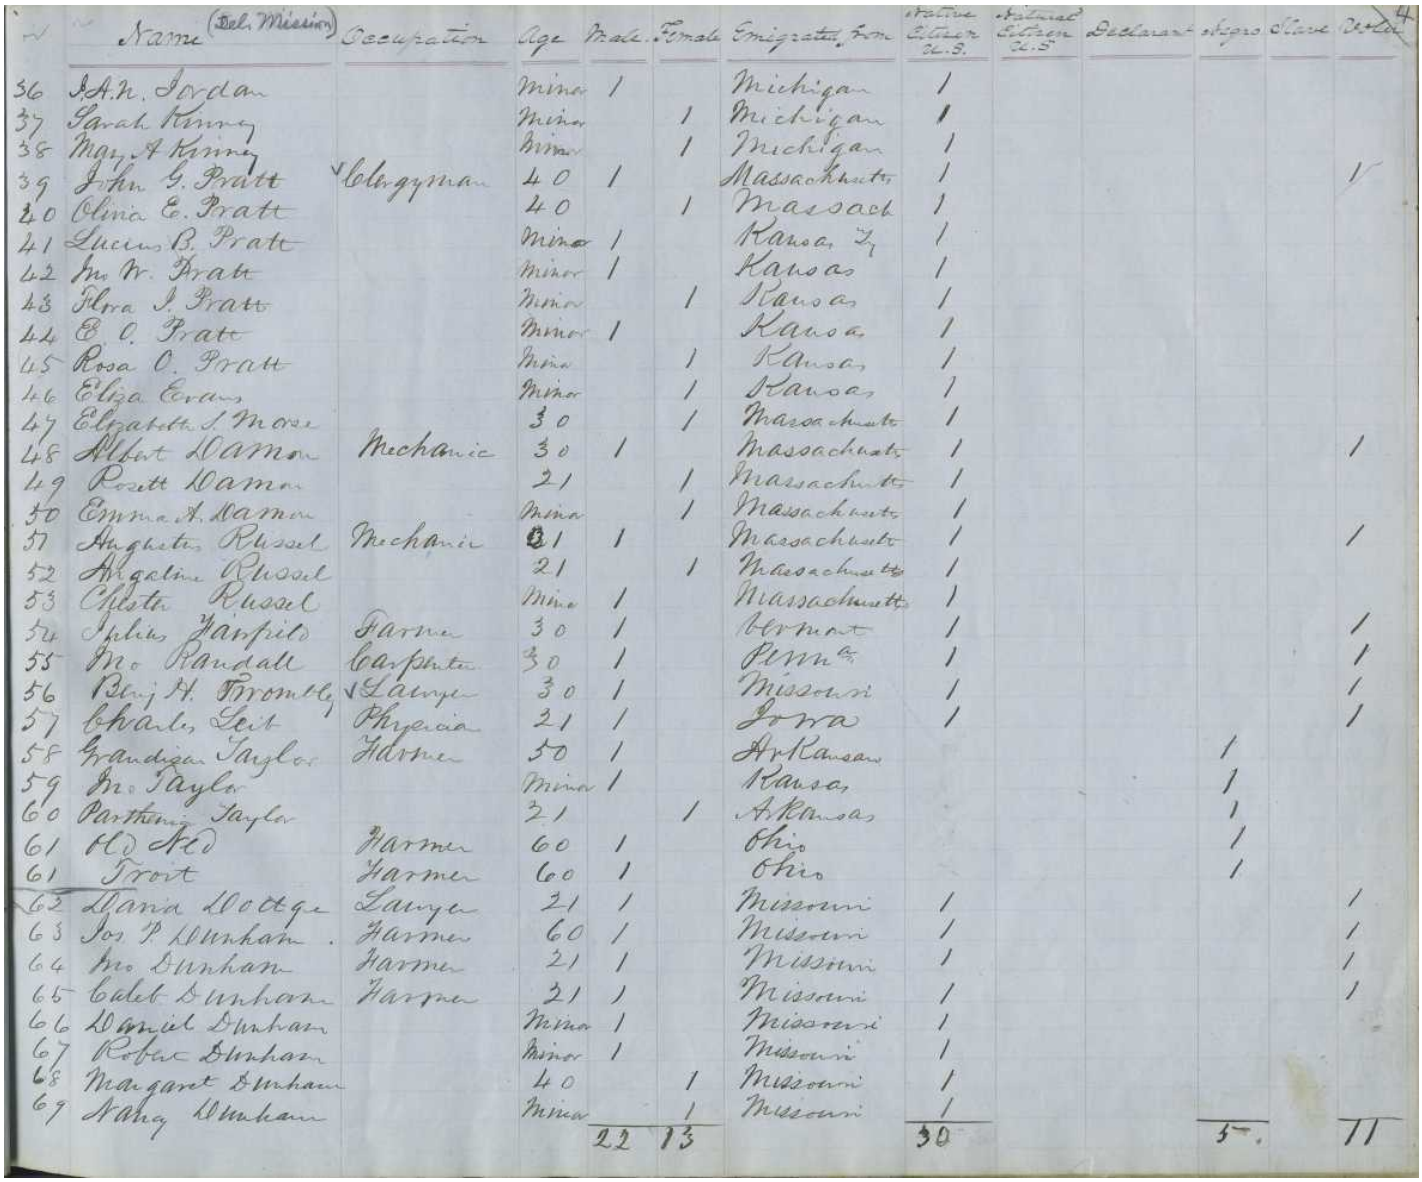

Governor of the Ty. of Kansas
